Our Products

WOVEN WIRE MESH

Wire mesh is widely used in various applications. The variety of woven wire cloth material and weave designs allow this material to be used in many common and not so common applications such as filters, strainers, baskets, sieves and sorters. Woven wire mesh is the ideal choice for applications that require both precision and strength. This advanced material is available in various alloys, and forms such as rolls, cut pieces, and custom sizes. Weave types include plain, twill, Dutch, twilled Dutch, and reverse Dutch.
