Industries We Served

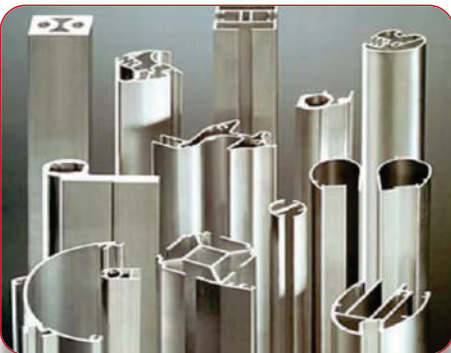

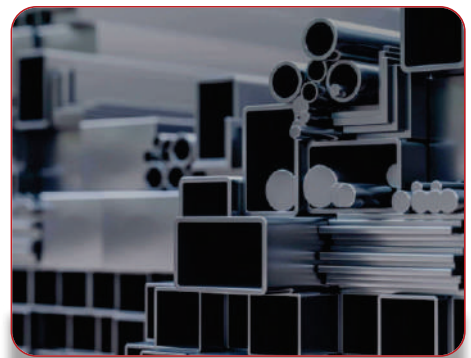

Customised Aluminium Section

A custom profile refers to an aluminium extrusion designed and manufactured according to specific customer requirements rather than standard shapes or sizes.

Standard Aluminium Section

A standard extrusion profile refers to a commonly used aluminium section that is manufactured in predefined shapes and sizes for general applications.

Structurer & Architectural

Façade and Curtain Wail, Modular Furniture and Hardware and Skirting and Scaffolding and Form work etc.

Electronic & Electrical

Heat sinks, LED, Resistor, Electrical and Heat Exchanger Etc.

Accessories we Provide for Invisible Grill & Pleated Mosquito Net

Stainless Steel Wire

High-tensile stainless steel (SS 316/304) wire offering strong safety, rust resistance, and clear open view for balconies and windows.

Invisible Grill Accessories

High-quality fittings like tensioners, clamps, and brackets ensuring secure, durable, and seamless installation of invisible grills.

Aluminium Section

Durable, lightweight profiles made from high-grade aluminium used for framing invisible grills, mosquito nets, and architectural structures.

Pleated Mosquito Mesh

Foldable mesh system that slides smoothly, offering stylish and effective protection against insects.
