

MEXIM ADHESIVE TAPES

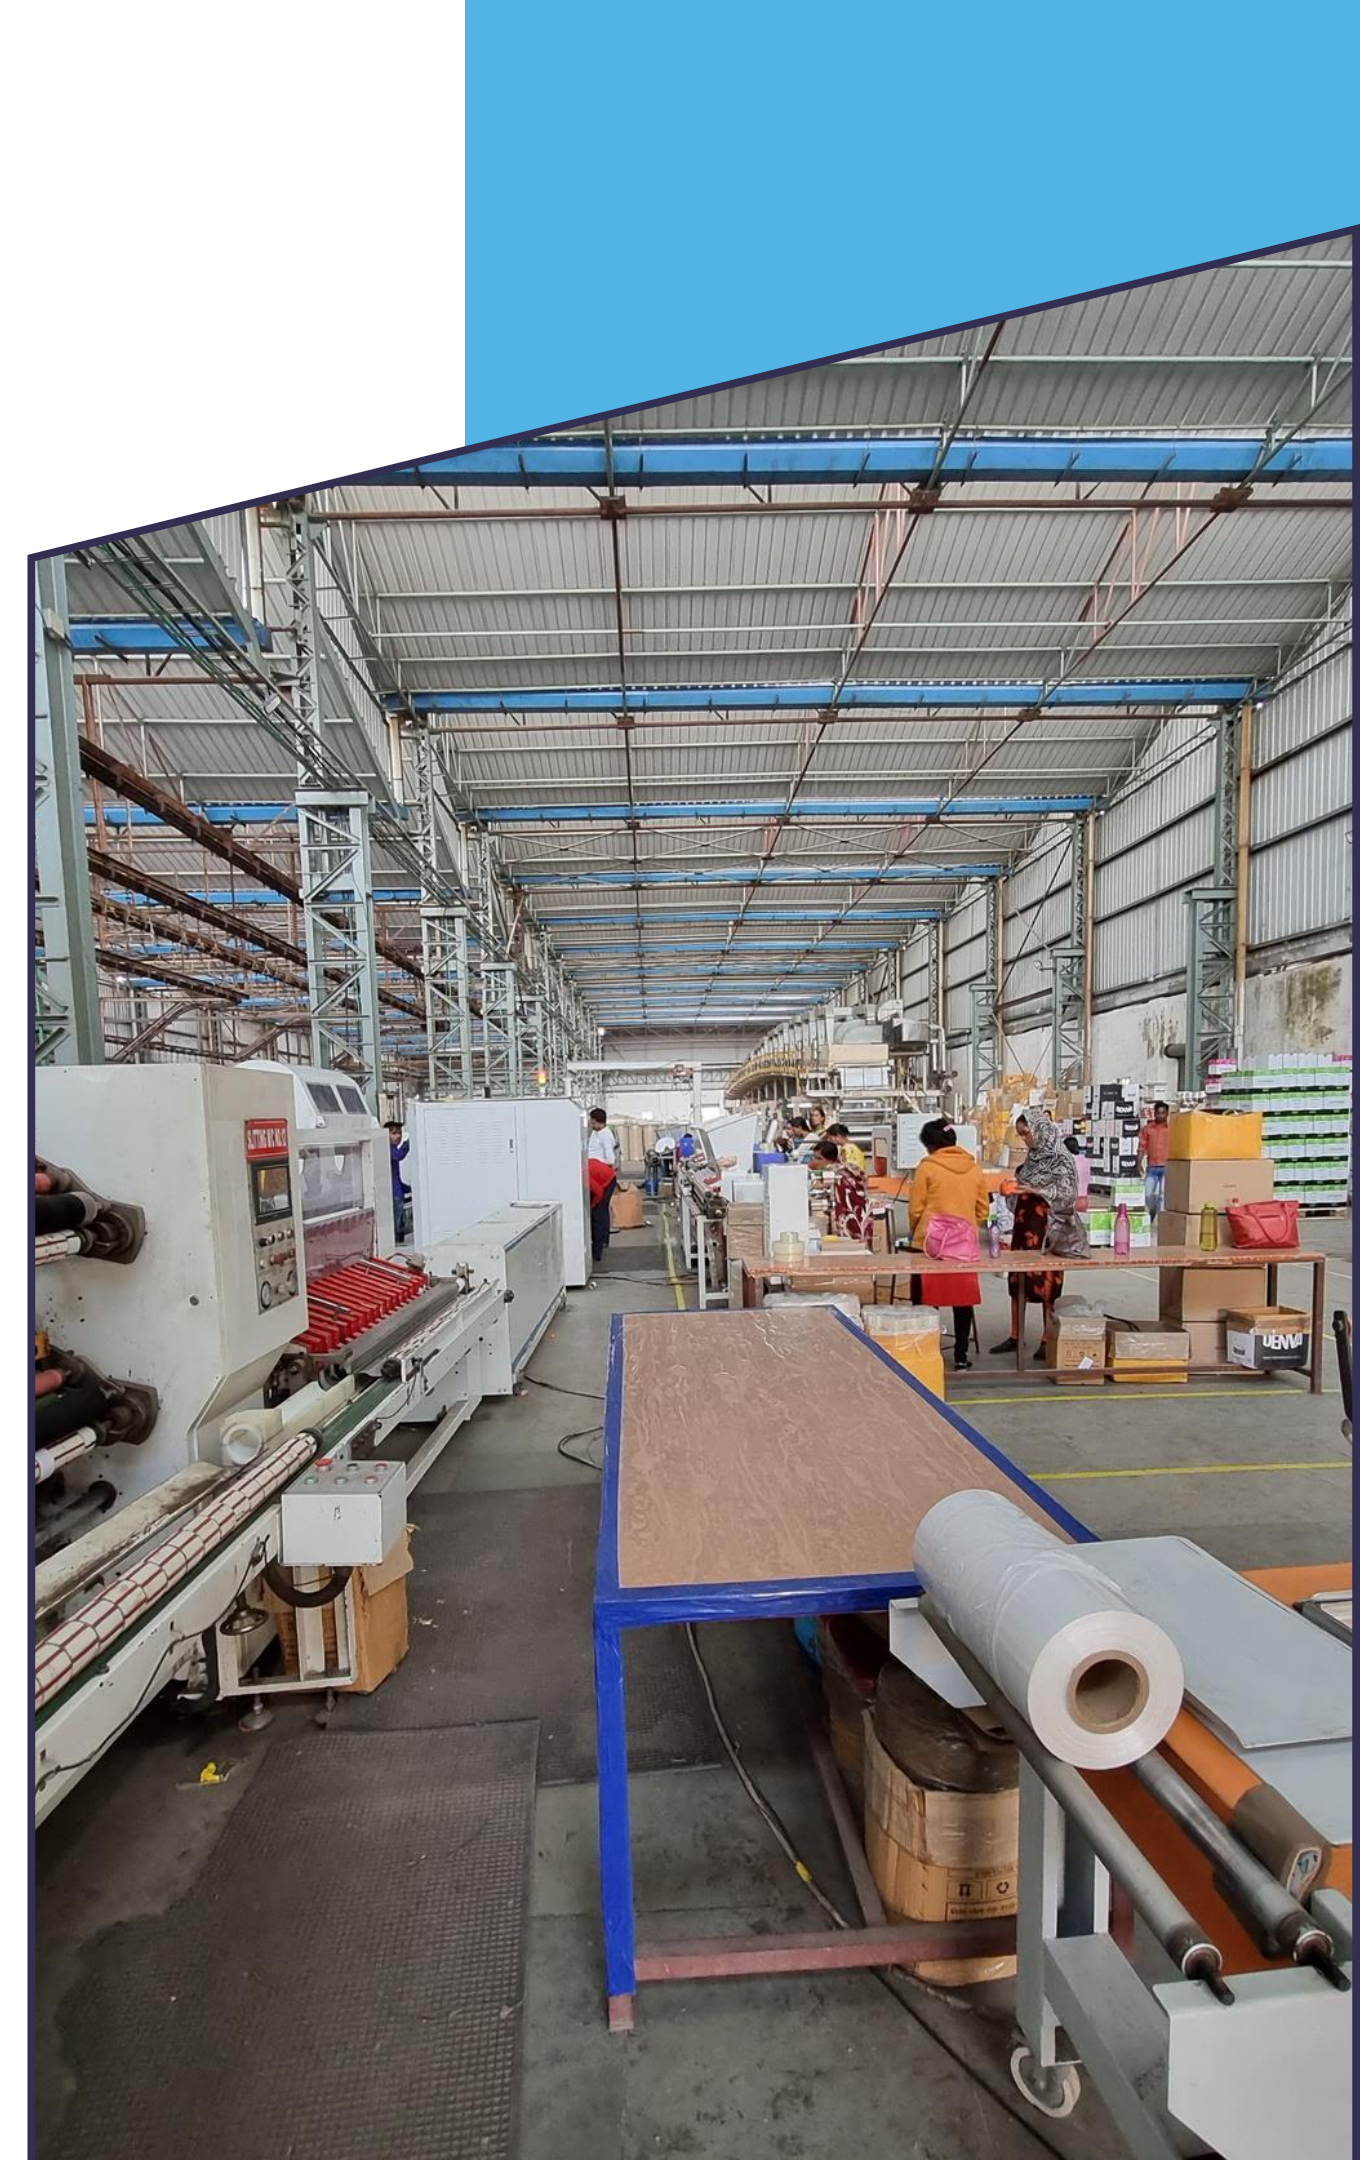

Mexim Adhesive Tapes Pvt. Ltd. is a leading adhesive tape specialist in manufacturing, packaging and consumer markets

We provide a wide range of well-researched and innovative products that have stood the test of time

ABOUT US

- 2 factories covering 60,000 SQFT of production area
- Fully equipped Quality Control Lab & a dedicated R&D
- CAGR \geq 20% since 2005
- Total production capacity of 850 MT per month
- Exports to more than 20 countries across four continents
- Quality Compliance - ISO 9001:2015
Environmental Compliance - ISO 14001:2015
Social Compliance - SMETA 4 PILLAR

"At Mexim Adhesive Tapes Pvt. Ltd., our mission is to be the leading provider of innovative packaging and specialty tapes, delivering high-quality solutions that enhance our customers' products and processes.

We are committed to consistently exceed customer expectations by leveraging cutting-edge technology, with a relentless focus on quality, reliability, and sustainability."

Vijay Deora

Managing Director

"We at Mexim Adhesive Tapes Pvt. Ltd., envision a future where our packaging and specialty tapes are the industry standard, recognized for their superior quality, innovation, and commitment to environmental responsibility.

We aspire to be recognized globally as the preferred partner for advanced tape solutions that optimize efficiency, elevate brand value and significantly focus on sustainability and environment."

Vijay Deora
Managing Director

Vision

MILESTONES

1987

Established in 1987 as a trading company

1995

Set up our first manufacturing unit of 8000 SQFT in Daman with 120 MT/month capacity

2000

Moved to a new manufacturing unit of 14000 SQFT. Set up a new coating line and increased our BOPP tape capacity to 280 MT/Month

2008

Added a third BOPP Coating Line, increasing our BOPP Tape capacity to 500 MT/Month

2009

Expanded the same facility to 30000 SQFT, and added a high-speed coating line and started the technical tapes division

2011

Shifted from Furnace Oil to LPG gas-based burners, thus becoming more eco-friendly

MILESTONES

2013

Started with Protection Tape manufacturing with 150 MT/Month Capacity

2014

Installed a new-gen multi-purpose coating line, with the facility to coat technical tapes

2017

Installed a new coating line for our first patented product, self-adhesive waterproofing tapes

2020

2020 Installed a new hot melt coating line

2021

Added a second manufacturing unit in Dadra, further increasing our BOPP Tape capacity to 850 MT/Month

2022

Installed a new PVC Coating line for Insulation Tapes

QUALITY CONTROL

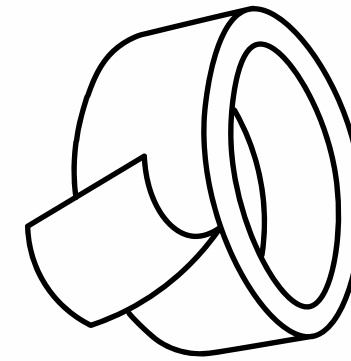

We prioritize using top-notch raw materials and are dedicated to delivering high-quality products

Over the years, we have defined our quality paradigm, following stringent quality measures to guarantee product performance across our range

RESEARCH & DEVELOPMENT

We emphasize Research and Development by making unique products using newer substrates and modern techniques. Our Team is committed to developing "Tapes of the Future"

MEXIM

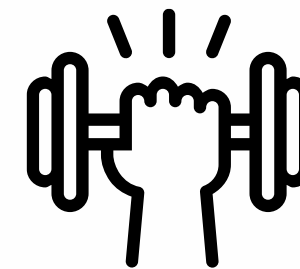

TACK

Property that signifies how fast the tape will start making bonds with the substrate

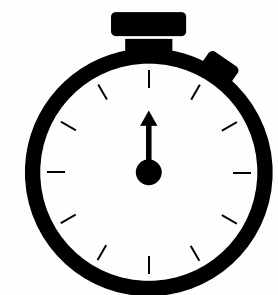

PEEL

Property that denotes the strength of bond between the tape and the substrate

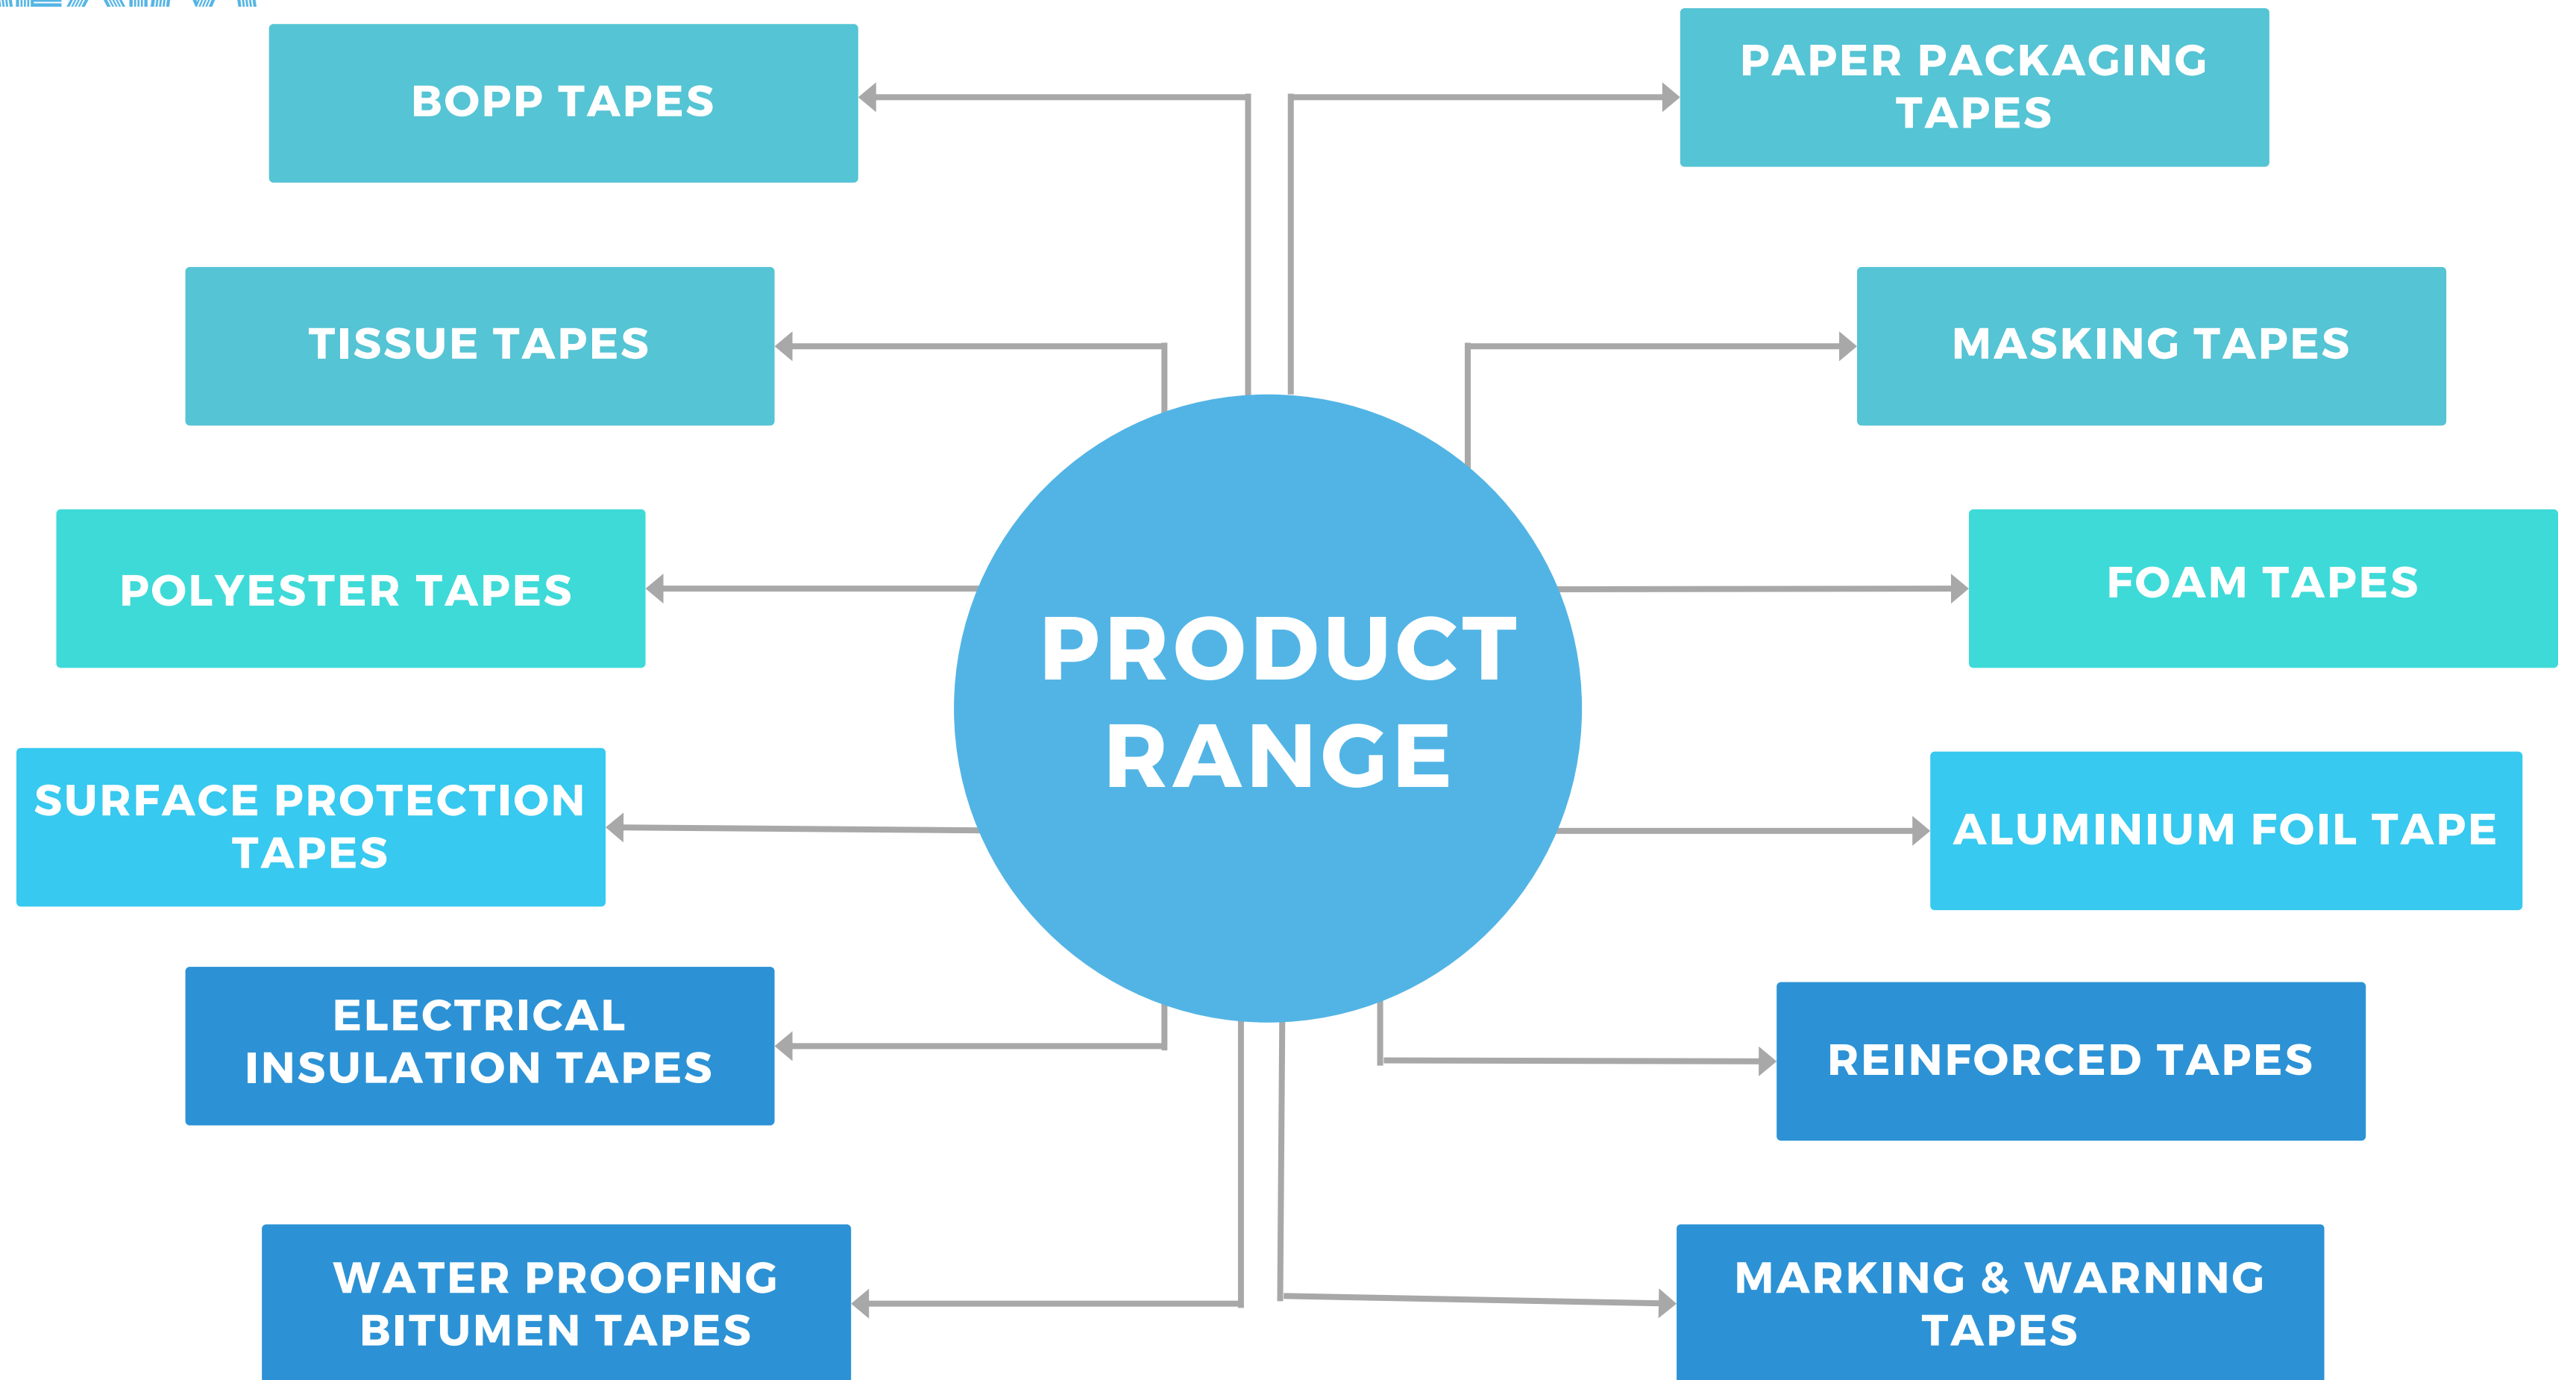

TENSILE

Measures the strength of the tape required to break it. It denotes the maximum weight a tape can survive

HOLDING POWER

Signifies the probability of bond formation between the tape and its substrate

LOCATION
