# Rooted in Purpose United by Vision

At Ozone, teamwork builds strength, trust shapes values, and customer focus provides direction. Guided by the pursuit of excellence, we've built a legacy of benchmarks. Rooted in purpose, we continue to engineer products and solutions that shape a future defined by performance and reliability.

# Legacy of Excellence Built on Trust

Since 1999, Ozone has evolved from a premium locks supplier to a leader in architectural hardware. Powered by vision, perseverance, and the pursuit of excellence, we are expanding into new frontiers, delivering durable, elegant, and lasting products & solutions that continue to redefine spaces.

**WINDOWZ**  
BY **OZONE**

# End-to-End Windows Crafted to Perfection

Ozone's new, dedicated 13-acre facility delivers truly unmatched production capacity across uPVC doors & windows, aluminium systems, and architectural glass solutions

Ozone's 13-acre facility combines CNC precision, automated production, and complete in-house processes from raw material to final assembly. Built to international standards, every window and door manufactured

ensures durability, quality, and high performance. With sustainability at its core, the plant runs on energy efficient systems, pollution control mechanisms, and eco-conscious practices.

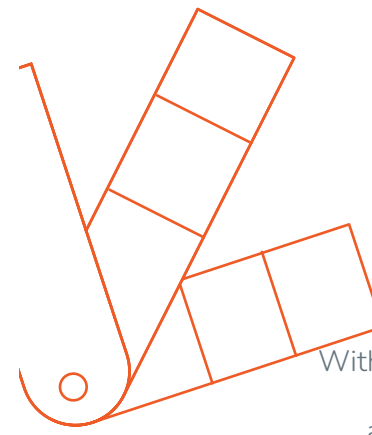

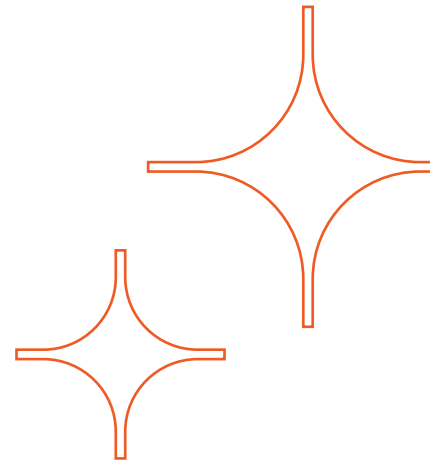

# Why Ozone Doors & Windows

## OZONE'S DESIGN PHILOSOPHY: CELEBRATING LIGHT & LIFE

Our windows blur the lines between indoors and outdoors with slim frames & interlocks, strong high-clarity glass, and concealed hardware, creating expansive views, brighter spaces, and everyday joy.

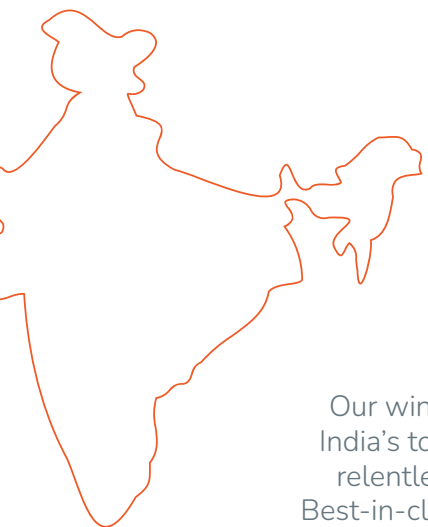

## LIMITLESS BY CHOICE

With Ozone windows, every detail is yours to shape. Choose from refined finishes like anodised, sublimation, or powder coating. Explore a wide palette of colours, glass selections for clarity and performance, and flexible profiles that adapt in topology, size, and width.

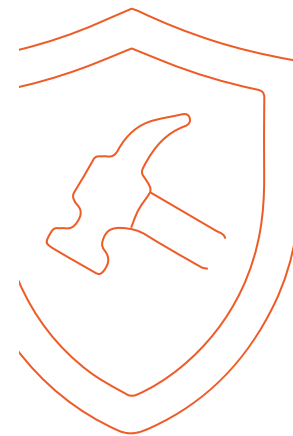

## END-TO-END WINDOWS SOLUTION

From site visits & measurements to window selection, certified installation, and after-sales care, our expert team ensures every window performs as promised. With full accountability and a strong PAN-India network, we deliver quick service, a seamless experience, and lasting peace of mind.

## ENGINEERED FOR INDIA, BUILT FOR BHARAT

Our windows are engineered to withstand India's tough climates- scorching summers, relentless monsoons, and stormy winters. Best-in-class UV and solar protection, water resistance of 600 Pascals, acoustic insulation of 50 STC, and superior wind-load performance, makes our windows endure season after season.

## THE OZONE PROMISE OF STRENGTH AND SAFETY

Backed by 25 years of expertise, Ozone represents trust and performance. Every window comes with an assured warranty of 10 or 20 years, and the hardware carries a 5-year warranty (T&C apply).

# Aluminium Windows

## Sleek & Strong

Aluminium windows combine modern aesthetics with strength and slim profiles. Resistant to corrosion and low on maintenance, they allow larger glass areas for more natural light while ensuring durability, security, and energy efficiency.
