BEYOND WINDOWS

At **VAROAG**, we don't just build windows, we open up new dimensions of design and possibility.

ABOUT US

Premium Manufacturer of Luxury Aluminium Windows & Doors.

We specialize in contemporary architectural solutions delivering bespoke aluminium window and door systems for design-focused residential and commercial projects. Crafted with precision and style, our products blend engineering excellence with sleek, modern aesthetics.

Discover the perfect fusion of elegance and performance with our luxury aluminium solutions. Designed for premium bungalows and large-scale projects, they offer sophistication, durability, and timeless appeal.

Our window and door systems are tailored for modern architecture featuring slim profiles, flawless finishes, and superior functionality. From minimalist homes to bold commercial spaces, we deliver style built to last.

PAN India Solutions – "Built to Perfection. Designed for Tomorrow."

*Manufactured in Rajkot, we serve clients across India with complete window and door solutions that define quality, innovation, and architectural refinement.

OUR
FINISHES

We focus on precision and detail to deliver high-performance windows that are both functional and beautifully crafted for homes and businesses.

ENGINEERING EXCELLENCE

90° Fittings:
All the fittings of the section are done at 90° to avoid expansion and Contraction of Aluminium.

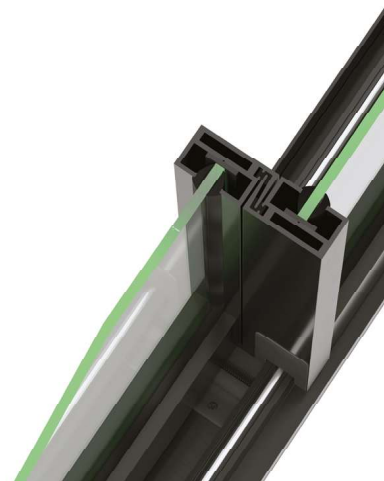

Roller Bearing:
High-quality roller bearing for a zero-effort sliding experience.

Conceal Provision:
A shutter guide is provided in the bottom frame, which helps to conceal the whole system for less view.

Male - Female Interlocking:
Pieces of the interlock lock together in their V-shaped grooves, eliminating the rattling sound caused by wind & making the interlock air, water, & dust-proof.

Drainage system:
A water drainage system is provided.

A NEW LEVEL OF WINDOWS

ENGINEERING EXCELLENCE

High Quality hinges:
High quality hinges are bolted and designed to last and can withstand the constant movement stress that windows endure during opening & closing, which ensures that your window opens smoothly.

Multipoint Locking:
Multiple locking method is used for secured and sturdy locking.

Rubber Gasket:
Specially designed & crafted rubber gaskets for an extra cushioning effect which prevent the shutter rattling or vibrations in the frame, especially in windy weather.
