Mesh Production Line

At Awesome Screens, we take pride in our in-house mesh production unit, where innovation and customization come together. This dedicated facility allows us to craft insect screens with precision and versatility, ensuring they seamlessly integrate with your unique living spaces. From material selection to design intricacies, every detail is meticulously considered, guaranteeing a product of unparalleled quality.

Crafting Your Ideal Insect Screens

Our skilled craftsmen and state-of-the-art machinery work in harmony to create screens that not only provide protection from insects but also enhance the aesthetic appeal of your living spaces. From initial design to final assembly, every step is executed with precision and care.

Quality Starts at the Source:

We meticulously select and test materials to meet the highest standards. This ensures that our screens not only look exceptional but also stand up to the rigors of daily use.

Streamlined Production Process:

With an in-house unit, we have complete control over the production process, allowing us to maintain rigorous quality checks and deliver products in a timely manner.

IG Blind Production Line

Step into our advanced DGU Blinds setup, where precision meets productivity. Fitted with cutting-edge machinery, this facility is the heart of our commitment to deliver blinds of exceptional quality, always on time. With a complete DGU line, we've perfected the art of efficient production without compromising on the meticulous craftsmanship that sets our blinds apart.

Quality Meets Efficiency

With our complete DGU line, we combine quality and efficiency to deliver blinds that not only adorn your spaces but also provide practical benefits. Experience the seamless integration of technology and craftsmanship in every blind we produce.

Efficiency Through Integration:

With a complete DGU line, we ensure seamless coordination for timely deliveries.

State-of-the-Art Machinery:

Our setup boasts state-of-the-art equipment for impeccable blind craftsmanship.

In-house Powder Coating & Anodizing Lines

Step into our specialized Powder Coating Section, where we offer an extensive array of customizable colors to elevate the aesthetics of your screens. Powder coating is a cutting-edge technique that provides a durable, uniform finish while allowing you to express your unique style. With meticulous attention to detail and a commitment to quality, we ensure that every screen leaves our facility with a flawless, vibrant coat

Resistant to
Fading

Corrosion
Protection

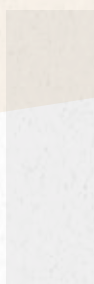

Scratch and Chip
Resistance

Immerse your screens in limitless design possibilities with our expertise in anodizing and wooden profiles. Our anodizing process transforms aluminum screens into sleek masterpieces, enhancing durability and ensuring resistance against corrosion.

Wooden Coating:

Simultaneously, our meticulously crafted wooden profiles seamlessly blend screens with diverse interior styles. Choose from a range of finishes for a captivating and harmonious living space, where form and function unite to redefine the boundaries of screen customization with Awesome Screens.

Motorized Vertical Windows

Introducing a revolutionary solution for unobstructed views and seamless indoor-outdoor living – our Retractable Vertical Windows. Immerse yourself in the beauty of unrestricted panoramas while enjoying the flexibility to transform your space. These windows redefine the boundaries between interior and exterior, offering a versatile and stylish solution for modern living.

Effortless Operation Controls:

Choose how you interact with your surroundings with our Retractable Vertical Windows. Whether it's the convenience of a switch or the flexibility of remote control, the operational controls are designed for effortless transitions, putting you in control of your space.

Unobstructed Views

Enjoy unobstructed views that erase the boundaries between indoors and outdoors.

Flexible Openings

Customize your space with flexible openings that effortlessly connect inside and outside.

Ventilation and Natural Light

Enhance airflow and natural light with easy window openings to the outdoors.

Sleek and Modern Design

Elevate your home's aesthetic with a sleek and modern window design.

Aluminium Pergolas

Experience the epitome of modern outdoor living with our Aluminum Pergolas featuring a roof tilter. Elevate your outdoor space with a perfect blend of contemporary design and functional innovation. Crafted from high-quality aluminum, these pergolas redefine your outdoor experience by providing shade and shelter with an adjustable roof, allowing you to control sunlight and airflow.

Aluminum Durability

Sturdy aluminum build for enduring outdoor structures.

Innovative Roof Tilter

Enjoy flexible control over sunlight and airflow with our adjustable roof tilter.

PVC Pergolas

Elevate your outdoor space with our PVC Pergolas, crafted for sophistication. These versatile structures seamlessly blend durability with style, creating a perfect retreat for relaxation and entertainment.

Durable PVC Construction

Engineered for longevity, our PVC Pergolas create a lasting outdoor centerpiece that withstands the elements.

Low Maintenance

Enjoy your outdoor retreat with minimal maintenance, allowing you to relax and unwind hassle-free.

Versatile Design

Complementing various architectural styles, our PVC Pergolas become a stylish focal point in your outdoor space.

Customize Your Space

Tailor your PVC Pergola to perfection, choosing from size to color to suit your unique preferences.

Zip Screens

Zip screens are versatile outdoor blinds designed to provide protection from elements like wind, rain, and insects while maintaining a clear view. They use a secure zip system to hold the fabric in place, making them ideal for creating comfortable outdoor spaces. Available in various styles and materials, they can be operated manually or with a motorized mechanism. Zip screens are a popular choice for enhancing and extending the usability of outdoor areas.

Modern Living, Elevated

Dive into the world of aesthetic possibilities with Zip Screens. Beyond their functional excellence, these screens become an integral part of your decor. Explore the diverse styles each operation control brings – from sleek modernity to timeless elegance, ensuring your screens complement and elevate the overall aesthetic of your living spaces.

Personalize your Zip Screens experience by selecting the operation control that suits your lifestyle.

Spring

Effortless deployment for instant protection and privacy.

Crank Control

Hands-on precision with a simple pull for easy adjustments.

Chain Control

Effortlessly raise or lower screens for the ideal balance.

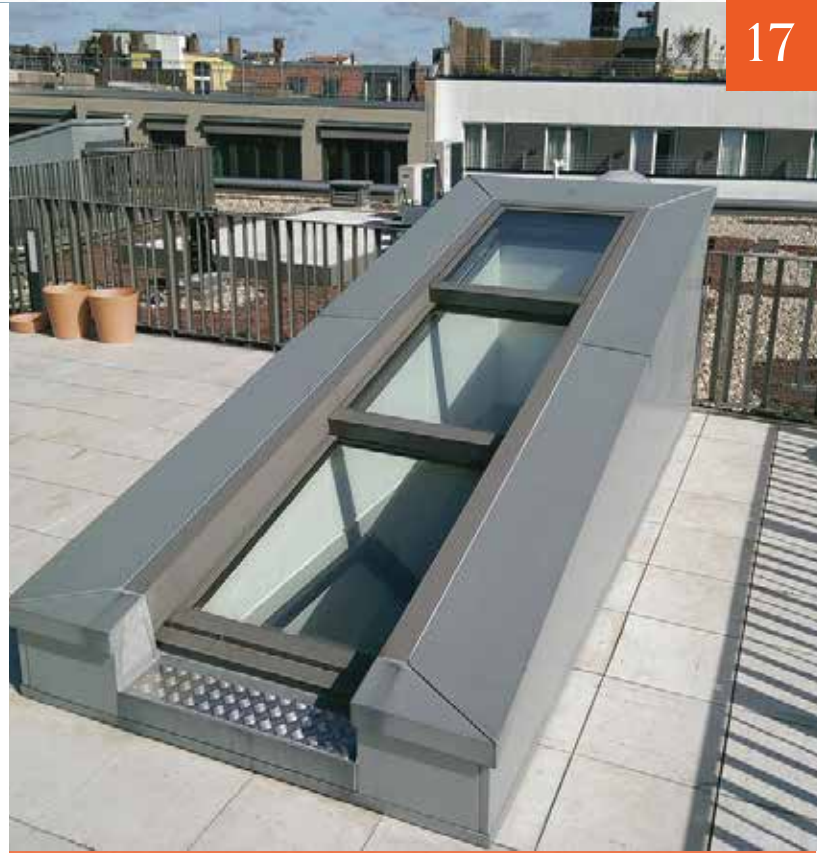

Remote Control

Modern sophistication with seamless control at your fingertips.

Retractable Roofs

A retractable motorized sliding roof system is an advanced architectural feature that offers customizable outdoor shelter. It consists of motorized panels or louvers that can be adjusted to regulate sunlight, airflow, and weather protection. This versatile system is ideal for both residential and commercial spaces, providing a seamless transition between indoor and outdoor living. Its sleek design adds a modern touch to any setting.

Dynamic Outdoor Retreat:

Whether it's basking in the warm sunlight, enjoying a gentle breeze, or seeking shelter from unexpected rain, this dynamic feature ensures your outdoor retreat aligns with your desires, providing a versatile and comfortable environment year-round. With precision at your fingertips, craft the perfect ambience for relaxation, entertaining, or simply unwinding in the embrace of nature.

Effortless Precision

Enjoy unparalleled convenience with motorized control, allowing precise adjustments to create the ideal balance of sunlight and shade.

Modern Elegance

Enhance your outdoor aesthetic with a modern, elegant design that adds a touch of sophistication to your living area.

Year-Round Resilience

Engineered to endure diverse weather conditions, ensuring resilience and peak performance throughout every season.

Energy-Efficient Design

Optimize energy usage with a thoughtfully designed system that promotes efficient operation, contributing to eco-friendly and sustainable outdoor living.

IG Blinds (Intergrated Glass Blinds)

Discover the seamless integration of aesthetics and functionality with our IG Blinds. These blinds, available in both manual and remote-controlled options, are ingeniously mounted within an Insulating Glass Unit (IGU). This innovative system not only enhances privacy and light control but also adds a touch of sophistication to your living spaces.

Whether you prefer the traditional feel of manual operation or the convenience of remote control, our IG Blinds offer a solution that suits your lifestyle. Experience the harmonious blend of form and function in every detail.

Enhance Your Living Experience:

With IG Blinds, you're not just getting a window covering; you're investing in a system that transforms the way you interact with your living spaces. Elevate your environment with the perfect balance of privacy and natural light.

Roman Skylight Blinds

Introduce a touch of timeless elegance to your skylighted spaces with our Roman Skylight Blinds. These bespoke blinds marry classic design with modern functionality, providing a sophisticated solution for controlling light and enhancing the aesthetic appeal of your interiors.

Heat and Glare Reduction

Roman Skylight Blinds reduce heat and glares, ensuring a comfortable living space.

Versatile Design Options

Choose from various colors, fabrics, styles, and patterns to match your interior aesthetics.

Convenient Motorization

Enjoy modern convenience with quiet, remote-controlled motorization for effortless operation.

Enhanced Comfort

Beyond functionality, Roman Skylight Blinds enhance the comfort and ambience of your room.

INSECT SCREENS

Insect screens stand as an indispensable shield against unwanted visitors in the form of pesky bugs and insects. Crafted with precision and designed for seamless integration, these screens offer a dual purpose - to allow the refreshing breeze into your living spaces while keeping out the nuisance of buzzing and biting intruders.

Horizontal Zip Screens

Experience a new level of freedom with our Infinity Zipline, a versatile solution available in powder-coated and anodized aluminum finishes. With customizable options like colored end-caps and brake levers, this innovative system features a unique mesh-to-track retention system, preventing sagging and ensuring a secure barrier against mesh blowouts.

Variety of Finishes

Choose from an array of finishes, including powder-coated and anodized aluminum, to match your aesthetic preferences.

Mesh-to-Track Retention

Benefit from a unique retention system that prevents sagging and eliminates the risk of mesh blowouts, ensuring a consistently secure barrier.

Smooth Operation

Experience effortless usage with the Freedom Infinity Zipline, as it boasts a smooth and easy-to-operate mechanism for seamless functionality.

Durable Construction

Rely on the durability of this innovative system, crafted with high-quality materials to withstand various weather conditions and ensure long-lasting performance.

Honeycomb Partitions

Experience the perfect blend of style and functionality with our Honeycomb Partition Door. This innovative door provides 100% blackout, UV protection, and is ideal for creating AC partitions. With a user-friendly feature at the bottom, it offers a barrier-free design, and its retractable system with a wider opening option allows for large partitions and enhanced privacy.

Blackout and UV Protection

Enjoy 100% blackout and UV protection, creating a comfortable and shaded environment.

User-Friendly Bottom Feature

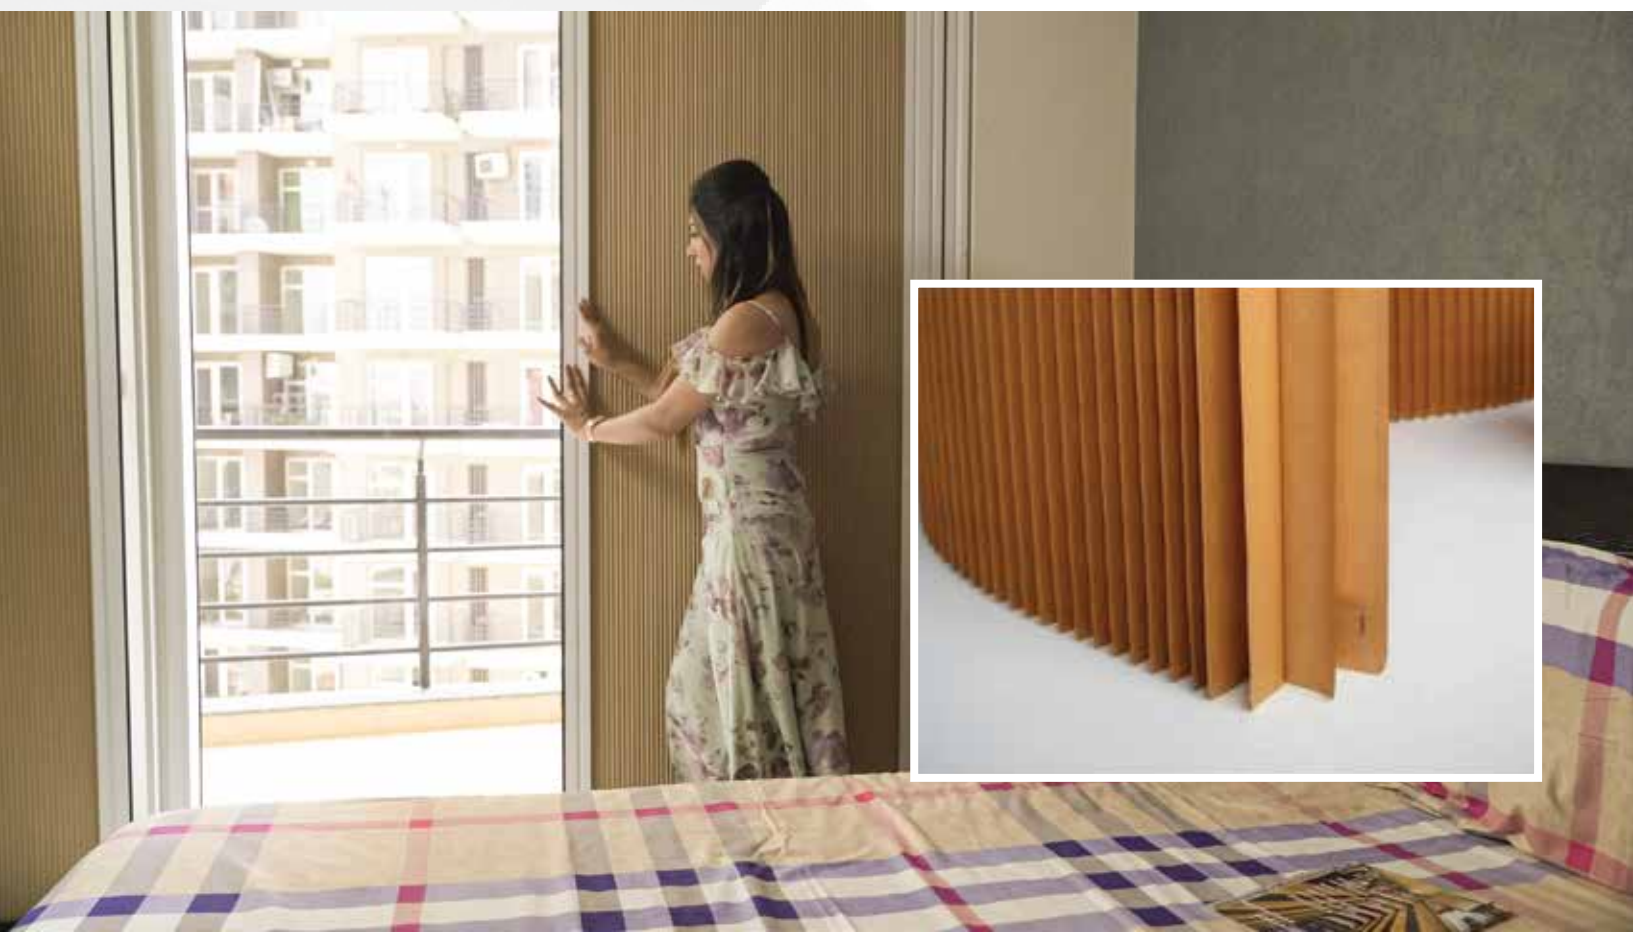

The user-friendly feature at the bottom enhances accessibility and ease of use.

AC Partition Compatibility

Designed for versatility, it serves as an effective partition for air-conditioned spaces.

Retractable System

The retractable system with a wider opening option allows for significant partitions and enhanced privacy.

Pleated Elite

Elevate your living space with our cutting-edge Pleated Elite System, a patented design imported from Germany. This detachable marvel is engineered to withstand high wind pressure, ensuring durability and performance that surpasses industry standards.

Maximized Visibility and Ventilation:

Wider opening options offer unobstructed views and abundant fresh air.

Collapsible Mesh

Elegant fold-away design maximizes views and minimizes visual disruption.

Insect Defense

Precision-crafted system forms an impenetrable barrier against insects.

Detachable Design

Revolutionary design allows effortless removal, ensuring easy maintenance and storage.

Barrier Free Mesh Door

Experience the ultimate blend of convenience and unrestricted access with our Barrier-Free Mesh Doors. Designed for seamless transitions, these doors provide a barrier-free entry, allowing you to enjoy the outdoors while keeping insects at bay.

German-Inspired Design

Barrier-free design from Germany with user-friendly features for easy access.

Retractable and Spacious

Wider opening option with a retractable system for maximum visibility and fresh air.

Versatile Application

Ideal for large balconies, verandas, French doors, and bifold doors.

Convenient Accessibility

User-friendly bottom feature ensures practical and easy access.

Aluminium Retractable Security Mesh

Discover the perfect synergy of security and style with our Aluminium Security Folding Mesh System. Crafted with precision and designed for strength, this folding mesh system not only provides robust security but also folds seamlessly to enhance the aesthetics of your space.

Anti-Mosquitoes and Insect Invasion

Keep mosquitoes and insects at bay, ensuring a comfortable and pest-free interior.

High-Graded Tensile Stainless Steel Wire

Utilizes 1.8mm – 2.4mm high-graded tensile stainless steel wire for added strength and durability.

MultiPoint Locking Security System

Ensures a secure environment with a multipoint locking security system.

Stylish and Modern Folding Look

Say goodbye to traditional grill aesthetics; the folding system offers a stylish and modern appearance, eliminating the "Grill Jail Look."

Pleated Classic

Indulge in the timeless charm and practicality of our Pleated Classic system. Designed for ease of use and versatility, this system enhances your windows with a collapsible mesh, making it an ideal choice for various window types.

Collapsible Mesh

Effortlessly operate the collapsible mesh, adding a touch of charm to your living spaces.

Weather-Resistant Material

Crafted from 100% polyester, the mesh is rain and sun-heat resistant, ensuring durability in various weather conditions.

Anti-Wind Clip

Enhance stability with the available anti-wind clip, ensuring reliable performance even in windy conditions.

- The mesh pleat size of 16mm adds a subtle and refined aesthetic to your windows.
- Ideal for tilt & turn windows, casement windows, and doors, offering a versatile solution for different window types.

Pleated Eco-Line

Introducing our Pleated Eco Line, specially designed for projects with an emphasis on affordable installation. Ideal for tilt & turn windows, casement windows, and doors, this retractable screen with wider opening options maximizes visibility and fresh air.

Versatile Applications

Ideal for tilt & turn windows, casement windows, and doors, providing a versatile screening solution.

Durable Mesh Construction

Sturdy polyester mesh in the Pleated Eco Line stands up to rain and sun-heat, ensuring lasting durability.

Roller Mesh

Welcome a new era of convenience and clarity with our Roller Mesh system. Designed with washable, fire-retardant, and lead-free features, this system ensures a better view, allowing abundant natural light and fresh air into your living spaces.

Washable and Fire-Retardant

Washable and fire-retardant features for hassle-free maintenance and enhanced safety

Optimized Natural Light

Retrieve 100 % natural light with improved visibility for a brighter living space.

High-Quality Fiber Glass Mesh

Durable fiber glass mesh ensures longevity and clear views.

Effortless Operation with Enhanced Safety

Spring-loaded mechanism with one-touch releasing and an anti-bump break system for seamless and safe functionality.

Actuators

Embark on a journey of smart window automation with our Window Actuator, complemented by the Electronic Overload Cut-Off Protector. Tailored for top, center-pivoted, hopper windows, heavy skylights, and glass curtain walls, this dynamic duo ensures not only seamless window operation but also intelligent protection against electronic overloads during opening or closing.

Customizable Settings

Personalize your window control experience with customizable settings, allowing you to fine-tune the operation based on your preferences and needs.

Remote Accessibility

Gain remote control of your windows for convenient and flexible management of your automation system from anywhere.

Motor Type	Torque	Voltage	Current	Travel Distance	Speed
SWA-01	600 N	24 VDC	1.0A	50-600mm	10mm/s

Air Vents

Bring a breath of fresh air into your living spaces with our Window Air Vents. Designed for optimal ventilation, these vents provide a practical solution to enhance airflow and maintain a comfortable atmosphere within your home.

Efficient Ventilation

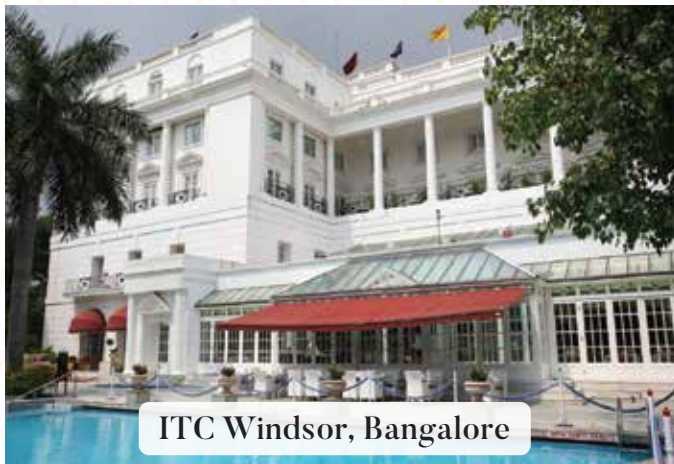

Enjoy improved air circulation and ventilation, enhancing the overall freshness and comfort of your living spaces.

Adjustable Airflow

Tailor the airflow to your preference with adjustable window air vents, allowing you to control the amount of fresh air entering your home.
