Precision in Every Frame,
Perfection in Every Pane."

ABOUT US

We as Eva Enterprise with the brand name ED Architectural establish in 2021. After research and developing new era of architectural products, windows, doors, partitions, safety grills and many more, introducing in premium quality systems.

We are serving as aluminum extruder since 2010 as, expertise in exclusive products. Our motto is provide premium quality aluminum with total hardware solution and software support system.

Producing more than 250 MT of aluminum per month also producing 2600+ exclusive product one to one.

We are just not making system but customizing system designs as per your need.

Why Chose Us?

We understand that selecting the right manufacturer for your aluminum doors and windows is a crucial decision, impacting the aesthetics, security, and energy efficiency of your space. Past experience of the design and development We are committed to delivering not just products, but solutions that exceed your expectations. now we are associated with more than 37 developers across the world, who are advising to make system more better and functional. Here's why discerning clients consistently choose us.

Sound Resistance
Inside you could easily forget its location, sound insulation and window glazing make it surprisingly peaceful.

Ventilation
Providing maximum ventilation during hot

Wind Resistancy
Find the various model as per wind pressure.

Easy assembly & installation
with some necessary tools and machines you could easily assemble and install systems with your own.

Safety
You could feel the double levels of safety one with laminated glass and safety grills with inside heavy rods.

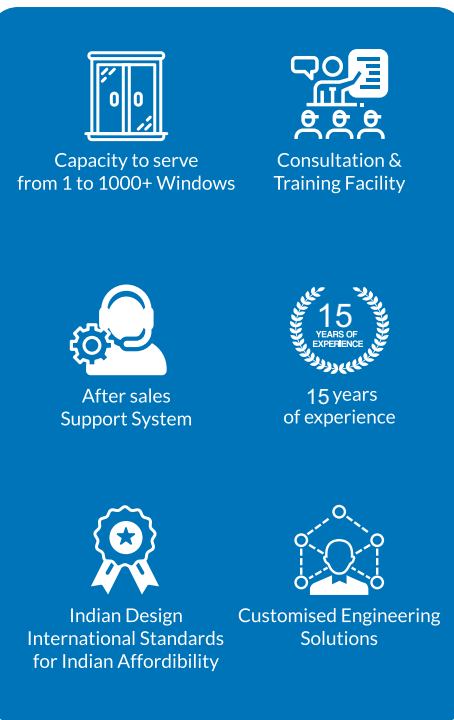

Insect protection
All models are fully opted with Insect protection system.

Water Resistance
with the best assembling solutions all designs gives you zero water passes

Impact Resistance
a material's ability to withstand sudden, high-force impacts without breaking or experiencing significant damage
