Whether you need a custom size, shape, or design, our team is here to help. We believe in providing exceptional customer service and building long-lasting relationships with our clients. We're always happy to answer any questions you may have and offer advice on selecting the perfect mirror for your space.

FUTURE OF MIRROR

2023

VISION

OOSY SMART MIRROR PVT LTD Mirror companies can vary in their focus and specialty. Some companies may focus on producing high-quality mirrors for home or commercial use, while others may specialize in more unique or specialized mirrors, such as mirrored furniture or one-way mirrors for security purposes. The success of a company may depend on factors such as the quality and design of their products, their marketing strategies, and their ability to stay competitive in a constantly evolving market. A successful mirror business might be able to adjust to shifting consumer tastes and market trends while upholding high standards for its products and client satisfaction.

MISSION

Our mission is to provide every client with the highest levels of professionalism, ethics, and workmanship. By using only the best craftsmen and industry authorities in glass and mirror, OOSY Company Mirror works to provide a smooth project process from beginning to end. Additionally, we strive to offer premium installation and construction at affordable rates by always looking for methods to enhance our goods and services.

ROUND MIRROR

FRONT SIDE LED LIGHTS

OOSY Company Round Mirror is a circular-shaped mirror with a flat or curved surface that reflects light, and its form dictates how the reflected light behaves. The surface of the mirror is typically made of glass, although it can also be made of other materials, such as polished metal or plastic. It can be used as decorative pieces in homes, bathrooms, offices, hotels, and other public spaces. They come in different sizes, designs, and styles, and can be hung on walls, placed on tables or shelves, or mounted on stands.

These mirrors are frequently used for grooming tasks including shaving, applying cosmetics, and hair style. They can be placed on tabletops or mounted on walls and may include extra features like lighting or magnification. The objective is to provide clients a compelling and clear understanding of how the round mirror may improve their homes and lives.

ROUND FRAME DEEP BEVELING MIRROR

FRONT SIDE LED LIGHTS

The Round Frame Deep Beveling Mirror from OOSY Company features a circular form with a bevelled edge that produces a sloping surface all the way around the mirror's perimeter. Depending on the intended appearance, the bevelled edge can have any angle between a shallow and a deep one. The purpose of the beveling is to create a visually interesting border around the mirror that can enhance the reflection and add depth to the overall appearance of the mirror. The deep beveling can create a shadow effect that gives the mirror a three-dimensional quality. Round frame deep beveling mirrors are commonly used as decorative items in homes and commercial spaces. They can be used to add a touch of elegance and sophistication to a room and can serve as a focal point in an interior design scheme.

You can also be used to create the illusion of more space in a room, as they reflect light and can make a space appear larger than it actually is. Additionally, the beveled edge can reflect colors and patterns in the surrounding environment, adding a unique and dynamic element to the mirror's appearance. Overall, round frame deep beveling mirrors are a popular choice for those looking to add a touch of style and elegance to their interior design.

ROUND MIRROR

FRONT SIDE LED LIGHTS

Our round mirrors are expertly crafted to provide clear and accurate reflections. The mirrors feature a glass surface that is designed to reflect light and provide a clear view of your surroundings. They are available in a variety of sizes, from small decorative mirrors to large full-length mirrors. Our round mirrors are perfect for use in any room of the home, including bedrooms, bathrooms, living rooms, and entryways. They can be mounted on walls, hung from ceilings, or placed on stands, depending on your preferences. Our mirrors are easy to install and are made from high-quality materials that are built to last.

The Lucy back-lit mirror, which is distinctively round, provides the ideal mix between softness and ambient sunlight. With its sweeping shape and ultra-modern design, it makes a soft gesture of grandeur. The mirror's ability to cast a smooth, ethereal glow along the walls is made possible by the open housing design.

LUXURIOUS SANDWICH MIRROR

EXTRA CLEAR GLASS WITH MIRROR

OOSY Company provides a luxurious sandwich mirror, a type of mirror that has its edges cut and polished at an angle, creating a framed look and giving the mirror a unique appearance. This process involves removing material from the edges of the mirror and then polishing the angled surface to create a smooth finish. The bevel angle can vary depending on the desired effect, but it typically ranges from 10 to 45 degrees. The wider the angle, the more dramatic the effect will be. Luxurious sandwich mirrors are often used in decorative applications, such as framing or accent pieces, and can add a touch of elegance and sophistication to any room.

Luxurious sandwich mirrors can also serve functional purposes, such as in bathrooms or dressing rooms, as the angled edges can make it easier to see around the edges of the mirror. Additionally, the beveling process can help to protect the edges of the mirror from chipping or cracking over time. It can be used in decorative accents in homes, bathrooms as they can make it easier to see around the edges of the mirror and dressing rooms or retail spaces where customers need to be able to see themselves from multiple angles.

PREMIUM RESIN COLLECTION

BACK LIGHT LED RESIN MIRROR

A "premium resin collection mirror" likely refers to a mirror that is part of a collection of mirrors made with high-quality resin materials. Resin is a type of synthetic material that can be molded into various shapes and forms, making it a popular choice for creating decorative objects such as mirrors. A mirror from the premium resin series can be used in any space as a decorative element or as a vanity mirror in the bathroom or bedroom. Any room can benefit from its distinctive design and excellent production, which can offer a touch of elegance and refinement. Its materials can also make it a statement piece that gives a room individuality and charm.

Naturally, a mirror from a luxury resin collection can also be utilized as a practical mirror for daily usage. A premium resin collection mirror may offer a clean and accurate reflection for grooming or inspecting one's appearance whether it is in a bathroom, bedroom or foyer. A quality resin collection mirror can be used in a number of ways to improve the look and effectiveness of any room.

ROUND MIRROR

FRONT SIDE LED LIGHTS

A round mirror with a leather belt is a type of home decor mirror that features a circular glass surface encased in a simple frame made of leather. The leather frame is designed to look like a belt that wraps around the mirror, creating a unique and stylish look. The leather belt can be made of various materials, including genuine leather, faux leather, or a combination of both. It may be adjustable, allowing you to easily customize the size and fit of the mirror to suit your needs.

Round mirrors with leather belts are versatile and can be used in a variety of ways to enhance the decor of a room. They can be hung on a wall or placed on a tabletop or shelf, depending on the size and design of the mirror. The leather frame adds a touch of sophistication and elegance to the mirror, making it a popular choice for modern and contemporary interiors. This can be used as a functional mirror for everyday use. They can be placed in a bathroom, bedroom, or entryway, providing a clear and accurate reflection for grooming or checking one's appearance.

HEXAGON MIRROR

FRONT SIDE LED LIGHTS

A hexagon mirror is a type of home decor mirror that features a six-sided polygon shape. The hexagon shape creates a unique and modern look, and it can be incorporated into various styles of home decor. Hexagon mirrors can be made with a variety of materials, including glass, metal, wood, and plastic. They can be frame less or come with a decorative frame. The mirrors can be hung on a wall, placed on a tabletop or shelf, or used as a tray for decorative objects.

The hexagon shape of the mirror can be arranged in various configurations on a wall to create a visually interesting display. For example, a set of small hexagon mirrors can be arranged in a honeycomb pattern, or a large hexagon mirror can be used as a focal point in a room. Hexagon mirrors can also serve a functional purpose as a mirror. They can be used in a bathroom or bedroom to provide a clear and accurate reflection for grooming or checking one's appearance. Overall, a hexagon mirror is a unique and versatile piece of home decor that can add a modern and stylish touch to any space.

HEXAGON MIRROR

FRONT SIDE LED LIGHTS

A hexagon mirror with a black color belt is a decorative wall mirror that features a six-sided polygon shape and a black leather or faux leather belt around the edges of the mirror. The hexagon shape of the mirror creates a unique and modern look, while the black leather belt adds a touch of elegance and sophistication to the overall design. The leather belt is typically secured to the mirror using metal rivets or other hardware, and it can be adjusted or removed to suit your preferred style or decor. The belt can also be used as a hanging strap to securely hang the mirror on a wall.

A hexagon mirror with a black color belt can be used in a variety of ways to enhance the decor of a room. It can be hung on a feature wall, above a fireplace or mantel, or in a bedroom or bathroom. The black leather belt adds a touch of texture and visual interest to the mirror, making it a stylish focal point in any space. A hexagon mirror with a black color belt is a unique and versatile piece of home decor that can add a modern and sophisticated touch to any room.

CAPSULE MIRROR

FRONT SIDE LED EFFECTS

OOSY company's new design capsule mirror is a compact mirror that is designed to look like a capsule, with a round or oval shape and a small size that makes it easy to carry in a purse, pocket, or travel bag. It typically consists of two halves that can be opened to reveal two mirrors inside, one regular and one magnifying. The compact size of a capsule mirror makes it a convenient accessory for on-the-go touch-ups, whether you need to apply lipstick, check your makeup, or remove a speck of dust from your contact lenses. The double-sided mirrors provide both a regular and magnified view, making it easy to see small details or apply precision makeup.

Capsule mirrors come in a variety of styles, colors, and materials, from simple plastic designs to more elaborate metal or enamel finishes. Some may have additional features such as LED lights or a built-in comb or brush. Capsule mirrors are perfect for quick makeup touch-ups, whether you need to apply lipstick, check your eyeshadow, or make sure your foundation is blended evenly. Capsule mirrors can be used for a variety of grooming tasks, such as trimming nose hair, shaping eyebrows, or checking for blemishes or other imperfections.

CAPSULE MIRROR

FRAME WITH PLAIN MIRROR

A capsule mirror is a small, compact mirror that is typically round or oval in shape and designed to fit inside a small container or case, such as a makeup bag or purse. Capsule mirrors are usually made of durable materials, such as plastic or metal, and have a reflective surface on one or both sides. Capsule mirrors are convenient and portable, making them ideal for on-the-go touch-ups or quick makeup applications. They are often used by women as a convenient way to check their appearance throughout the day, or to apply makeup in situations where a larger mirror is not available.

Capsule mirrors come in a variety of sizes and styles, ranging from simple and functional to more decorative and ornate designs. Some capsule mirrors feature additional features, such as magnifying surfaces or built-in lighting to make it easier to see in low-light environments. Overall, capsule mirrors are a useful and practical accessory that can be a valuable addition to any makeup or beauty routine.

OVAL & EGG SHAPE MIRROR

FRONT SIDE LED LIGHTS

An oval mirror and an egg-shaped mirror are two different shapes, but they both have a unique aesthetic appeal and can be used for similar purposes. This is a mirror with an elongated shape that is wider in the middle and narrower on the ends. It can be hung horizontally or vertically and is a popular choice for bathroom vanities, dressing rooms, and other areas where a functional and stylish mirror is needed. On the other hand, an egg-shaped mirror is a mirror that is shaped like an egg, with a wider, rounded bottom and a narrower, pointed top. This shape can create a whimsical and playful effect, making it a popular choice for children's rooms or other areas where a more playful aesthetic is desired.

Mirrors of all shapes, including oval and egg-shaped ones, may be utilized as decorative accents in a range of locations, including living rooms, foyers, and bedrooms. They can be framed or unframed, and they can be mounted on walls or set on stands. While egg-shaped mirrors can give off a more current or contemporary vibe, oval mirrors are frequently employed to produce a more conventional or classic aesthetic.

HALF CAPSULE MIRROR

FRONT SIDE LED LIGHTS

A half capsule mirror is a mirror that is designed to be compact and portable, but is cut in half to create a unique and interesting shape. It is typically made of durable materials, such as plastic or metal, and has a reflective surface on one or both sides. The half capsule mirror is a popular choice for those who want a smaller mirror that is easy to carry with them on the go, but also want something that stands out from the typical round or oval shape of most compact mirrors. Its unique shape allows it to fit easily into small bags or pockets, making it ideal for touch-ups and makeup application on the go.

Half capsule mirrors can come in a variety of sizes, colors, and styles, depending on the manufacturer. Some models may feature additional features, such as magnifying surfaces or built-in lighting to make it easier to see in low-light environments. Half capsule mirrors are a unique and fashionable item that may be a useful addition to any beauty or cosmetic regimen. They provide a convenient, portable way to check your look while on the go, as well as a lighthearted and humorous take on the conventional compact mirror design. Half capsule mirrors are a great tool for applying makeup on the go. They can be used to check your appearance or apply lipstick, eyeliner, or other makeup products. Overall, half capsule mirrors are a practical and stylish accessory that can be used in a variety of situations. Their small size and unique design make them a versatile tool for anyone who wants to look their best on the go.

SQUARE MIRROR

FRONT SIDE LED LIGHTS

OOSY Company square mirror with curved edges is a type of mirror that has a square shape but with rounded or curved edges. This style of mirror is also sometimes referred to as a "rounded square" or "square with rounded corners". The curved edges of a square mirror can give it a softer and more elegant look than a traditional square mirror with sharp corners. The curves can also create interesting reflections and play with light in different ways. Square mirrors with curved edges can come in a variety of sizes, materials, and styles to fit different types of decor. They can be framed or frame less, and can be hung horizontally or vertically depending on the intended use and space.

These types of mirrors are often used as decorative pieces in interior design, but can also be functional in spaces such as bathrooms, bedrooms, and dressing rooms. They can be hung on a wall as a statement piece, used as a vanity mirror, or placed on a tabletop or dresser as a decorative accent. Overall, square mirrors with curved edges offer a unique and stylish option for home decor. They provide a modern and elegant look while also creating interesting reflections and playing with light in different ways.

SS FRAME MOVABLE MIRROR

WITHOUT LED LIGHT MIRRORS

An SS frame movable mirror is a type of mirror that is surrounded by a frame made of stainless steel (SS) and can be moved or adjusted to different angles or positions. The SS frame is a sturdy and durable material that can withstand wear and tear and is easy to clean. The movable mirror is typically mounted on a swivel arm or stand that allows the mirror to be rotated and tilted to different angles or positions. This allows the user to adjust the mirror to the most comfortable and convenient angle for their needs, making it a versatile and practical option for many different situations.

SS frame movable mirrors are commonly used in bathrooms, dressing rooms, and beauty salons, but can also be found in other settings such as offices or medical facilities. They are often used for tasks such as shaving, applying makeup, or inspecting one's appearance. The stainless steel frame of these mirrors not only adds a modern and sleek look to the mirror, but also provides durability and resistance to rust and corrosion. The adjustable feature of the mirror allows for greater flexibility and convenience, making it a popular choice for those who value both style and functionality.

SHAPE MIRROR

FRONT SIDE LED LIGHTS

A shaped mirror is a type of mirror that is designed to have a unique or non-traditional shape, rather than the standard rectangle or square shape. Shaped mirrors can come in a wide variety of shapes, including round, oval, hexagonal, octagonal, and even irregular or asymmetrical shapes. The shape of a mirror can greatly affect the look and feel of a room or space. For example, a round or oval mirror can provide a softer, more organic feel, while a sharp, geometric shape like a hexagon or octagon can create a more modern or minimalist look.

Shaped mirrors can also come in a variety of sizes, from small accent mirrors to large statement pieces. They can be framed or frameless, and can be made from a variety of materials, including metal, wood, glass, or acrylic. Shaped mirrors are often used as decorative pieces in interior design, adding visual interest and personality to a space. They can be hung on a wall as a statement piece, used as a vanity mirror, or placed on a tabletop or dresser as a decorative accent. They can also be used to create unique and interesting reflections, playing with light in different ways.
