ISO 14001 - 2015 Certified Co.

About Us

Premium Coatings & Chemicals (P) Limited, an ISO: 9001 - 2015 and 14001 - 2015 Certified Company is a leading manufacturer of Polyurethane Coatings, Epoxy coatings, Wall coatings and many other Speciality Coatings in India since 1996.

Premium Coatings is known as a renowned manufacturer and supplier of a wide range of Polyurethane (PU) Coatings such as PU Wood Coatings, PU Metal Coatings, PU Glass Coatings, PU Plastic Coatings, PU Architectural Coatings, Polyurethane Floor Coating and PU Auto Refinishes. Polyurethane system offered by us has enabled us to establish our presence across all the segments of its applications as we continue to remain an innovator and an institution of laying benchmarks in the field of Polyurethane Coatings

The company has launched an impressive range of water based products for Decorative as well as Industrial segment which is again incorporating latest technologies to create remarkable footprints for our presence with innovative concepts. EQUACOAT remains the leading brand in this segment

The company is promoted by professionals who have a combined experience of over 5 decades in the Indian Paint Industry.

Premium Coatings over the years have developed an impressive list of clients including renowned companies, OEM's & leaders in their own segments.

Premium Coatings have very strong Pan-India presence in the retail Dealer segment through chain of Distributors / Branches located in major cities across India. Marketing network is supported by our associate Company namely **Premium Speciality Paints (P) Ltd.** Our Associate company has state of the art manufacturing facility in RIICO Industrial area of ABU Road (Rajasthan)

The company has two State of the art manufacturing facilities in Chennai, backed by a competent R&D, sales and service team working as close associate to our reputed customers to their entire satisfaction.

Premium Coatings have been progressing to achieve it's Corporate mission to Lead in the field of Specialised Coatings with innovative technology, maintaining high standards of Industry practice mostly with tailor-made approach for key customers in justifying the Company's theme **"World Class Coatings for Every Surface"**.

Wall Coating Systems

WITH OUR MY VARNAM 2 IN 1 TINTING SYSTEM, NOW YOU CAN AVAIL SHADES OF YOUR CHOICE IN WATER BASE, PU, GLASSCOAT, ACRYLICS AND EPOXY BASES.

**Over
3000 shades
available**
including
RAL, PANTONE ETC.,
Ref: FANDECK

Premium Coatings offer a wide range of PU base **UNIQUE WALL COATING SYSTEM** in the brand name of **AQUATHANE**.

Our **EQUA COAT RANGE** Covers entire range of wall coating application for Exteriors, Interiors in highend premium and commercial range.

System includes a Satin Enamel, Glossy Enamel, Laminated HS Clear, Water Base Metallics, Cool Mastic, Floor Coat. High Perform Sealer & Premium wall primer and this system offers best possible advantage Colour Stability, Washability, Abrasion resistance, Stain Resistance & Strong Adhesion on all Building substrates used for Interior or Exteriors.

The Specific Brands launched in this segment is as under. All Water based systems enabled with our **MY VARNAM** Machine tinting systems. Company is well equipped to design latest technology water-based systems for variety of domestic and Industrial applications.

Wall Coating Systems

EQUACOAT METALLICA: Exterior grade fine pearl pastes in all brilliant metallic tones for every surface.

EQUACOAT SATIN ENAMELS: New concept rich coverage satin finish for all exterior/interior applications. Maintenance free and washable like enamels, recommended for wall, wood, and even metal surfaces with suitable undercoats.

EQUACOAT GLOSSY ENAMELS: High performance glossy finishes recommended for building substrates. Other popular brands as per market requirement with distinct advantages over other popular brands.

EQUACARE XEROFIRE - WHITE: Very effective fire retardant coating for every surface to protect valuable assets.

EQUACOAT ANTI GRAFFITI CLEAR: Very effective poly siloxane-based anti-graffiti clear.

EQUACOAT COOL MASTIC - PUD: Very effective heat reflective paints for roof tops with water repellency.

EQUACOAT RUST GO - RUST CONVERTER: Very effective to neutralize flash rusting from corrosive surfaces.

Wood Coating Systems

Premium Coatings offers a complete portfolio of PU Wood Coating systems (Two Component / Solvent borne type) for Natural finishes and Opaque colours suitably designed for Exterior and Interior applications as well as Water borne PU system (Single Component) for natural finish.

Both types have their complete set of respective Sealers, Primers, Fillers, Wood Stains, Colourants, Clear topcoats (Glossy & Matt), Pigmented Top Coats (Glossy, Matt, Metallic and Pearls). Wood Coating are promoted with following popular Brands for proper identification according to their segments.

POLYURETHANE WOOD COATING - NATURAL FINISHES (2K SOLVENT BORNE)

CLASSIC WOOD (EXTERIOR): This is high performance PU-2K system for all types of wooden surface. Most suitable for Luxury furniture, Doors, Windows, Canopies, Exterior panelling, Wooden floors, Wooden gates and Structures, Hotel lobbies & Furniture.

NEW SILK WOOD (INTERIOR): Cost effective PU-2K system with fast setting characteristics preferred for all types of interior wooden items for better durability as compared to other conventional systems for domestic and Industrial applications.

UNIWOOD (EXTERIOR AND INTERIOR): Cost effective PU-2K system preferred for all types of interior and exterior wooden surfaces for better durability as compared to other conventional systems for domestic and Industrial applications.

VITO ITALIA / DECO WOOD (INTERIOR): Latest PU Wood coating system in line with many MNC products of this category in the market. Industrial packs offered in A&B separately on bulk sale.

POLYURETHANE WOOD COATING - NATURAL FINISHES (WATER BORNE-SINGLE COMPONENT)

AQUA THANE: A single component PU water based system with Exterior and Interior options are the most viable LOW VOC alternate to traditional solvent based products. It suits latest International regulations of Environmental, Health and Safety. Latest Architectural choice for High end Hotel projects, Luxury Homes, Embassies, Exported Wooden objects, Wooden Flooring, Photo frames, and decorative furniture.

POLYURETHANE WOOD COATING - OPAQUE (PIGMENTED) FINISHES

Premium Coatings offer a full comprehensive range of Impregnator, Isolator, Fillers, Primers, Surfacer, Colourants, **CLASSIC PU TOPCOAT SHADES (GLOSSY, MATT, METALLIC & PEARLS)** to suit all type of high end wood decoration with long term durability even in extreme adverse conditions for Interiors as well Exteriors. Modern Kitchen cabinets, Garden furniture, Exterior panelling, Sport goods, Luxury office, domestic and show room furnishing etc.

Metal Coating Systems

Premium Coatings has a complete range of high performance PU Coating systems (2K) and EPOXY Coating Systems for variety of Metal substrates including polished / plated metals to get desired shades/ finish from our pigmented range Top Coats (Glossy, Matt, Metallic and Pearls) or Clear Top Coats (GLOSSY or MATT). The finish coats offered in following Brand names.

- **CLASSIC PU FINISH GLOSSY & MATT:** A high performance PU Finish for excellent Colour and Gloss retention, UV Resistance most suited for Metal Grills, Gates, Windows, Electric Poles, Medical equipment, Machinery, Sports goods, Buses & Coaches, Light fittings, Sanitary fittings, Automotive components offered in retail packs also.
- **UNIKOTE PU RANGE:** This is an Industrial use coat effective PU Finish offered in limited shades.
- **AUTOXOL /AUTOSHINE PU RANGE:** Specially designed for high solid, higher performance weather resistant premium Quality Finish recommended for Automotive segment. This is offered in selected Top coat colours, Clears (Glossy & Matt).
- **PRETHANE ECONOMICAL PU SYSTEM:** Complete economical PU system with suitable undercoats in all types of top coat finishes offered in selected shades for industrial applications in highly competitive market.
- **HIGH PERFORMANCE EPOXY FINISHES:** 100% Epoxy Finish range in popular BIS and RAL shades offered.

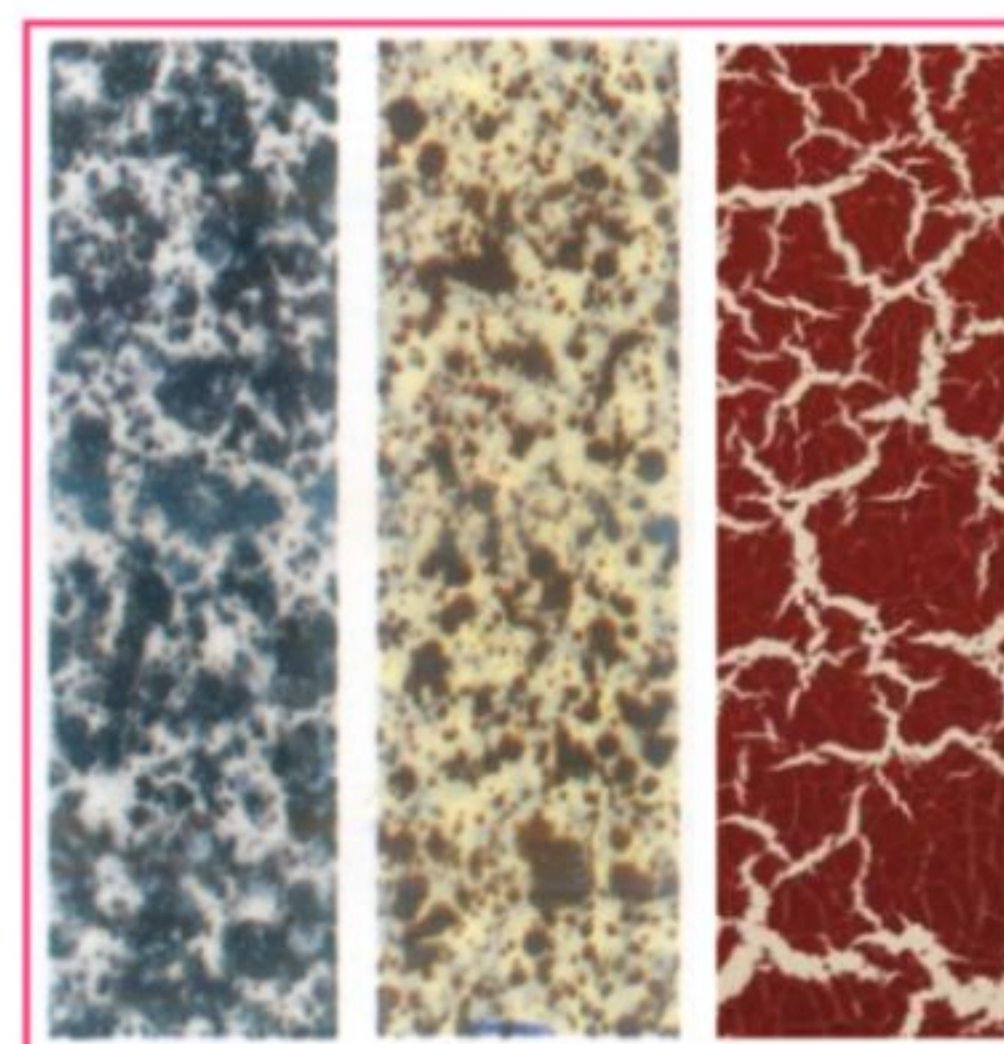

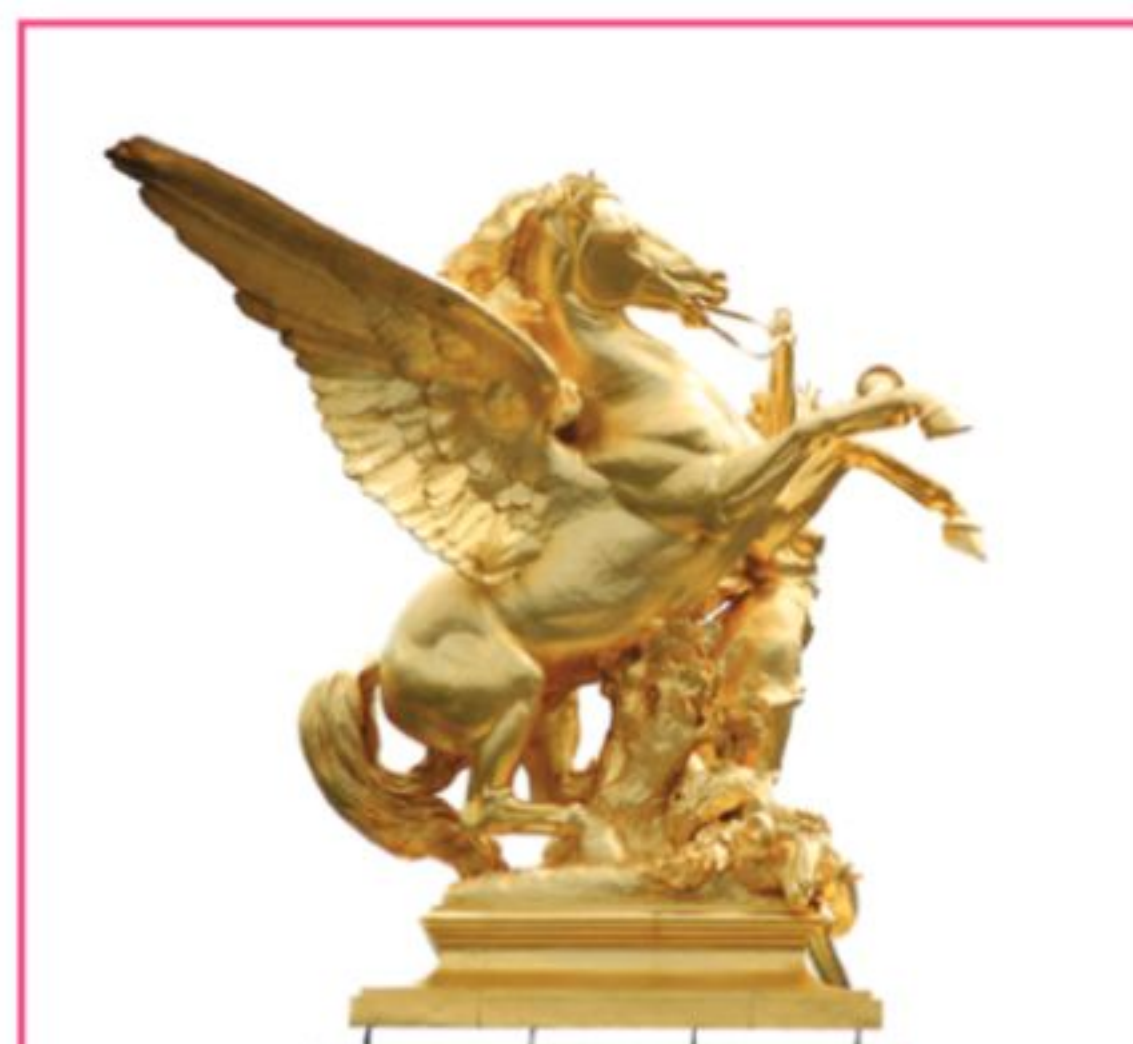

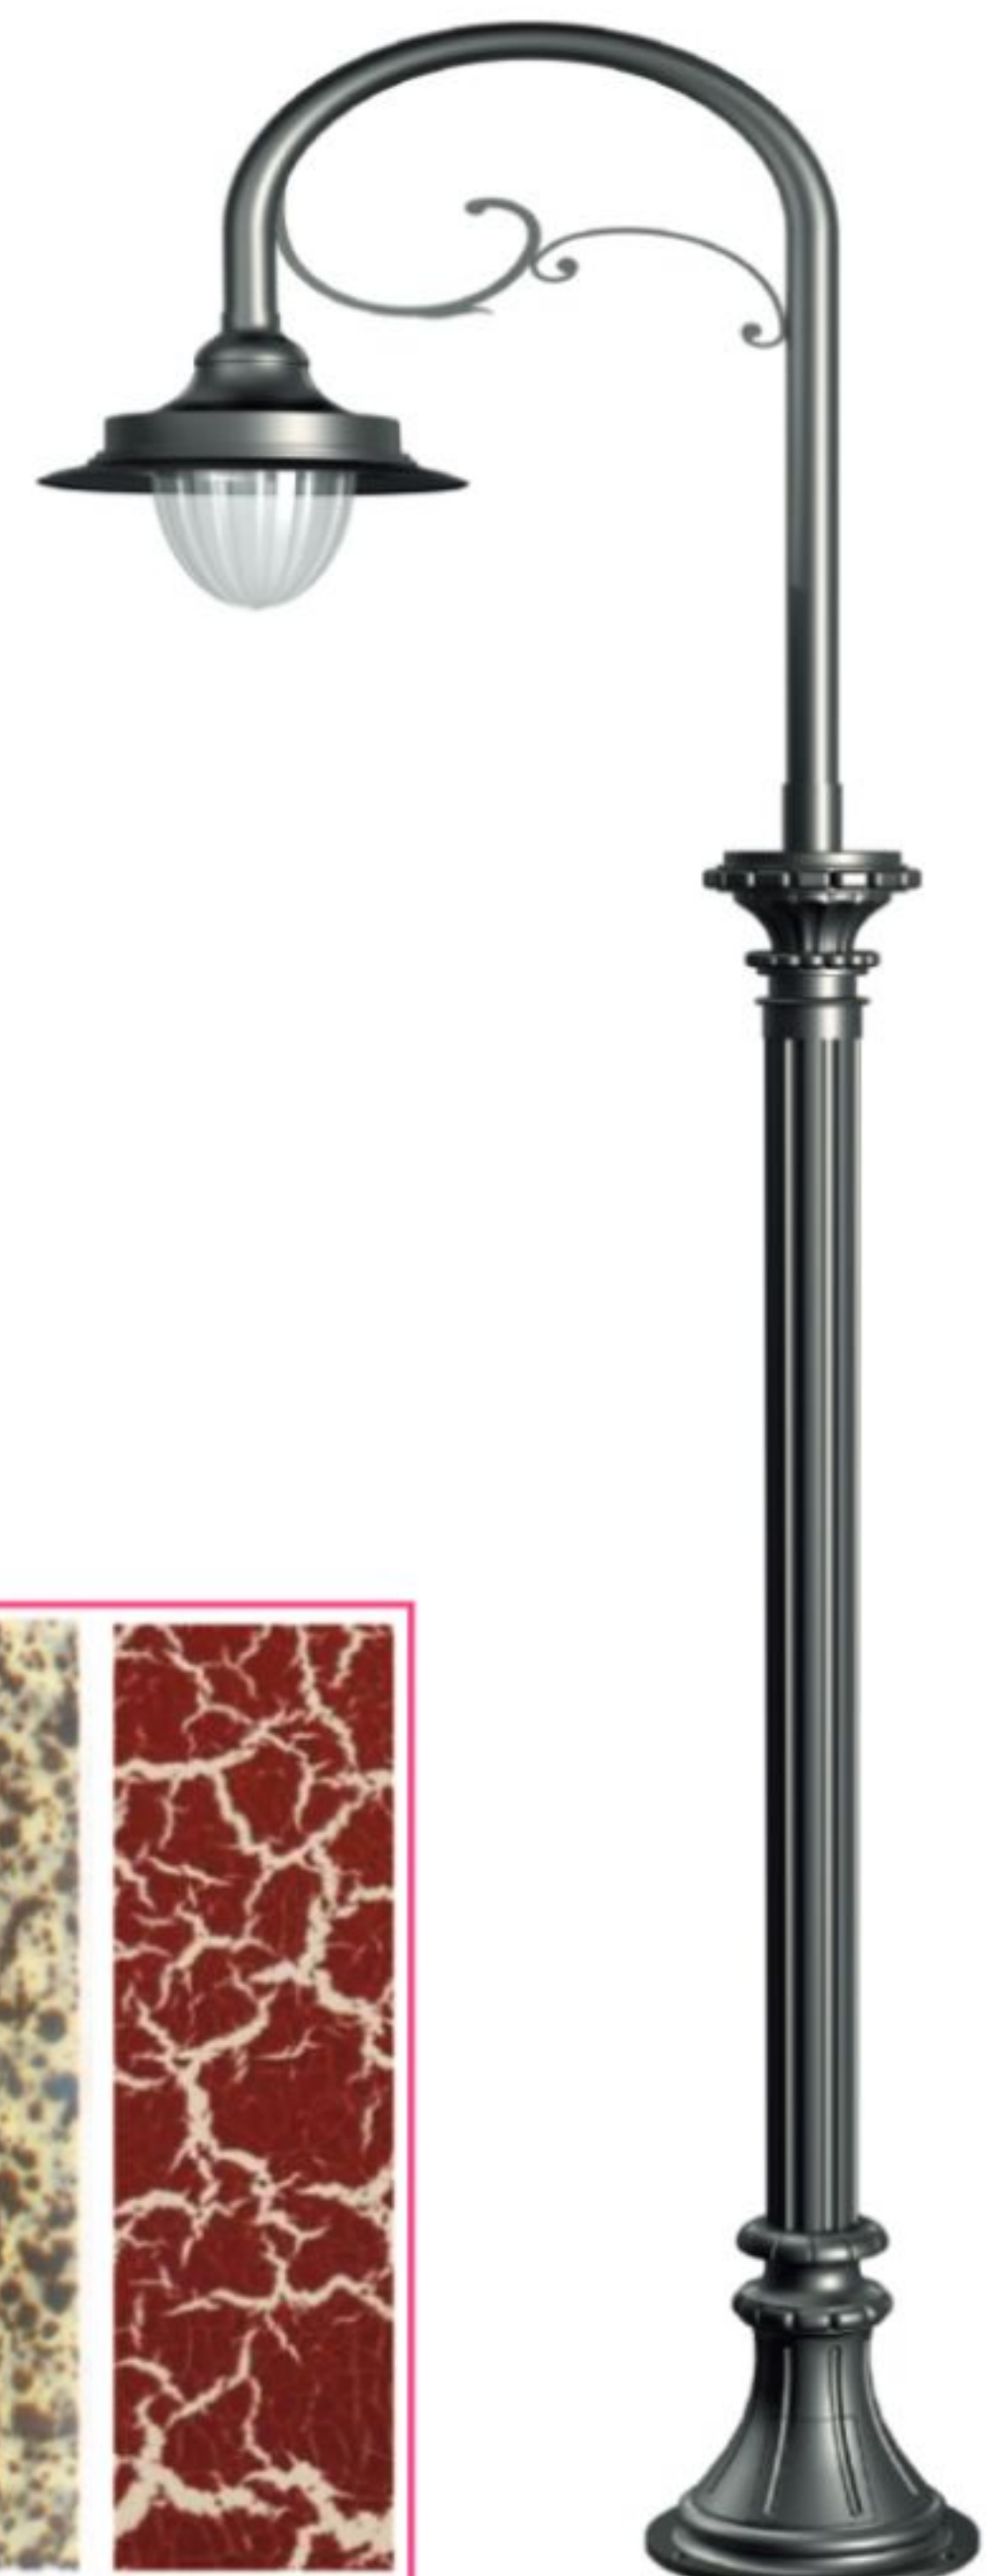

The above all system includes performance based multiple choice for Epoxy Primers (Epoxy Zinc Phosphate, Epoxy R/O, Epoxy Weldable, Epoxy High Build and MIO, Zinc Rich etc), Fillers, Putty, PU Surfacer (1K and 2K), base coats and undercoats. Company also offers lot of tailor made solutions complying with national / International specifications.

Acrylic PU (1K) Decorative & Novelty Finishes

- **SUPERFINE SILK APPEAL SERIES:** (Acrylic PU - 1K) Finish offers attractive metallic finishes giving close to plated metallic finishes like Fine Pearl, Solar Gold, Copper, Fine Silver, Bright Silver, Coarse Silver etc. This can be used as top coat followed by clear coat on all types of surfaces.
- **CRACKLE FINISH:** Offered as Crackle Primer (RTU Clear base coat) applied on base colour and **CRACKLE FINISH CLEAR** to be tinted as per colour choice in contrast to base colour. This system forms crackle pattern on any surface it is applied.
- **MARBLE FINISH:** marble type pattern can be created on any surface with systematic application of Metal tone dye Solution and Marble thinner combination over Glossy base coat.
- **GRANITE FINISH:** Multi coloured Dotted Granite texture effect can be created on any opaque shade with this material. Company provides guidance for creating many other possibilities for special effect novelty finish as per specific project demands.
- **FERRODIN:** Rough Metallic Matt Texture finish gives a plastered metal surface. Used for Electrical Poles, Architecture furniture, Grills and gates etc.

Plastic Coating Sytems

Premium Coatings offers a wide range of PU / Epoxy /Acrylic based Coating system for almost all types of Plastic substrates like PP, ABS, FRP, PC, PVC etc. This includes suitable Primers, Sealers, Primer surfacer, Fillers depending upon their solvent sensitivity.

Customized coating solutions are available for OEM, Electrical, Furniture, Wind Mill Industries.

IMC (Inter Mold Compound) coatings for Automotive Steering Wheels, Auto components and Furniture Industry.

CLASSIC PU FINISH (2K-GLOSSY/MATT/METALLICS) and 1K- ACRYLIC (TPA -Plane, Metallics, Pearls) range offered through retail chain/small packs(1 ltr) also with many of the shelf standard shades of latest trends in retail packs also available. Specific shades, Aesthetic finishes for **OEM** or as per **RAL, PANTONE, BIS** etc is also our strength.

Industrial Maintenance & Floor Coatings

Premium Coatings offers a high-performance Epoxy system with complete range of Primers, Putty, Top coats as per BIS & RAL Shades. This caters to requirement of Plant & Machinery Coatings, Chemical Resistant Coatings, Floor Coatings etc.

Wide range of Primers-Epoxy Zinc Phosphate / Red Oxide Primers, Epoxy High Build Primers.

SPECIAL EPOXY SURFACE TOLERANT - MASTIC solvent less coating for high Durability in critical conditions.

WELDABLE EPOXY PRIMERS for various Industrial and Automotive segments.

FLOOR SEALERS for Water Proofing specialized applications for water treatment subjects.

SPECIAL RUST CONVERTER Primers suitable for effluent / water treatment plants.

Glass Coating Systems

Premium Coatings offers specialized Glass Coatings for a variety of segments as per Domestic, Industrial and Architectural applications at par with stringent by International standards.

GLASS COAT SERIES CONSISTS OF OPAQUE (GLOSSY & MATT) TRANSPARENT & CLEAR AND FROST FINISHES

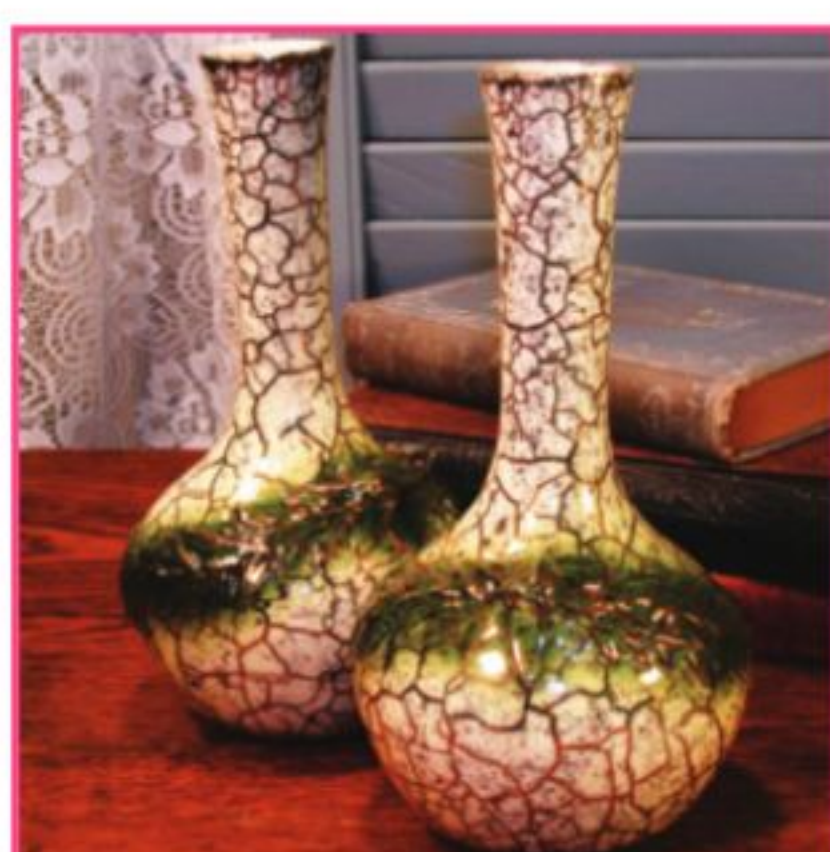

PU GLASSCOATS (2K) Air-drying/force drying type for all types of applications for Glass Handicrafts, Partition Glasses and other Architectural applications.

PU GLASSCOATS (1K) STOVING TYPE (180/200 C) for high endurance properties required for specific applications like Perfume bottles, Ceramic tiles, Glass Utensils, Sanitary fittings etc.

STOVING GLASS COAT (140/150 C) for general purpose Glass Coat applications

DIGIKOTE is a specially formulated 2K P.U system for Digital printing of Glass and Tiles. These can be used for both Pre and Post coat applications. First choice for the Digital U.V Printing Industry.

METAL TONE DYE solutions **ROHS** compliant (transparent colors). **FROSTING BASE** offered for customers to prepare the choice of color and finish combinations for individual requirements.
