

EXTRUDE **TOGETHER**

KIMMATIC ALUMINUM MACHINERY

- **Simple, Strong, Reliable Quality**
- **Affordable price**
- **Life-long service**

WWW.KIMMATIC.COM

About Us:

We, **Kimmatic Aluminum Machinery LLC**, have been supplying extrusion lines since 2005 with more than 30 years experience in extrusion fields.

We established our joint-ventured factory in China and started manufacturing our own brand extrusion press supported by Korean technology since 2023 and so our price and quality of our press is now most competitive in the world and its excellent service will be fully guaranteed for life long.

Our factory already in house manufactured from 500 T to 6000T extrusion press with conventional up loading, short stroke back loading and short stroke front loading press etc.

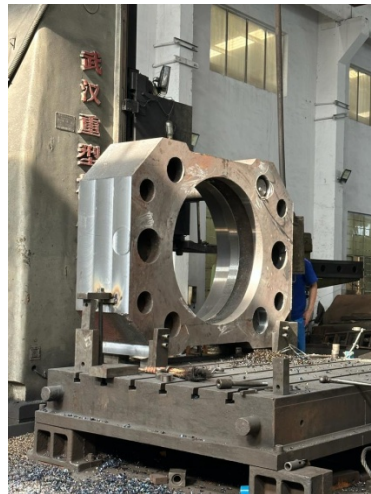

Also we can manufacture more than 6000T capacity press as per customer's requirement.

In addition to the extrusion press, we are supplying below mentioned machineries and equipments under collaboration with partner factories in China to provide complete extrusion line at most competitive price under our full warranty.

- Billet (log) heater with shear and hot saw : single and multiple heater.
- Puller: single and double puller
- Handling table with stretcher .
- Aging oven and die oven.
- Other equipment for the extrusion line like dies, packing machine, thermal break machines etc.

We are looking forward to having an opportunity to extrude together very soon.

Thank you.
