HLT Industry Co., Ltd. has been dedicated to the development and manufacture of automatic hydraulic presses for 40 years.

With an annual production capacity of more than 700 sets of various types of automatic hydraulic presses.

Currently produces all kinds of presses from 600 tons to 36,000 tons, with a stable annual sales volume of 400 sets. More than 9000 sets presses of all types have been delivered to customers.

At present, HLT can provide more than 30 specifications and models of aluminum extrusion press from 1100 tons to 12,500 tons, and it is a leading enterprise in aluminum extrusion in China.

HLT has rich manufacturing experience and unique core technology for the main components of aluminum extrusion press, ensuring the processing accuracy and assembly effects of parts and components, and improving the stability and reliability of equipment.

HLT is committed to building a large-scale high-end intelligent equipment manufacturing digital factory and introducing advanced manufacturing equipment. It currently has more than 100 sets (sets) of mechanical processing equipment and the asset value is more than 200 million yuan. The automation rate of core parts processing procedures is 100%.

Product Introduction

Single Action Direct Extrusion Press

YPL 2000

Press Structure: Short Stroke Back Loading/
Front Loading

Loading Method: Servo Billet Loader

Dead-Cycle Time: 12.5 s

Maximum Extrusion Force: 2000 MT

Installed Power: ~565 kW

YPL 4500

Press Structure: Short Stroke Front Loading

Loading Method: Servo Billet Loader

Dead-Cycle Time: 20 s

Maximum Extrusion Force: 4500 MT

Installed Power: ~1050 kW

YPL 6000

Press Structure: Short Stroke Front Loading

Loading Method: Servo Billet Loader

Dead-Cycle Time: 25 s

Maximum Extrusion Force: 6000 MT

Installed Power: ~1300 kW

Automatic High-End Industrial Profile Intelligent Extrusion Line

China Changan Automobile Group Co., Ltd.

After the cooperation intention for a complete line project for China Changan Group (hereinafter referred to as CCAG) in 2024, HLT customized a 4500T aluminum extrusion press complete line for CCAG Chongqing base. The project has been successfully put into production since end of February, giving CCAG an advantage in seizing the new energy vehicle market.
