Heartfelt Thanks from **Cardinal Aluminium**

We are truly grateful for your visit to our stall at Acetech Exhibition 2025.

Your presence made our participation more meaningful and reminded us why we strive for excellence every day.

Together, we look forward to building not just structures, but lasting relationships.

About **Cardinal**

The story of Cardinal Aluminium Systems begins with a legacy built by Shri Ghanshyambhai Patel, whose Laxmi Trading Company has helped shape India's aluminium ecosystem for over four decades through trust, expertise, and a strong logistics network.

Carrying this legacy forward, Cardinal Aluminium Systems, the flagship of Cardinal Alusys LLP, was founded under the leadership of Mr. Ambrish Patel to create aluminium doors and windows that unite Indian expertise with European precision. Partnering with leading hardware makers from Germany, France, Italy, Spain, and Portugal, we bring world-class performance and design to every project.

Our **Strength**

CEB50
Bay Window

Imagine a bay window that honors classic charm but embraces modern needs. With slim frames and an invisible sash, the CEB-50 opens up your space with light and grace. Its rounded 54 mm profile lets you install it at any angle, adapting to your home's personality. Whether you want glass from 5–31 mm with shutters height up to 2 metres, the Sash can be open inside or outside, supported by premium European hardware built to last.
