Surface Finish Pvt. Ltd.

CELEBRATING 25 YEARS
REAL GROUP
2000 - 2025

Mr. Sanjay Vaghasiya
Managing Director

INTRODUCTION

Real group was established in the year 2000 with complete surface coating solutions.

Real Surface Finish Pvt. Ltd., the flagship company of the Real Group, was established in 2013 and has grown to become a pioneer in India's surface coating industry. We are proudly celebrating our Silver Jubilee, marking 25 years of excellence, innovation, and leadership in surface finishing solutions.

With over 25 years of experience and **14 advanced plants ,** we are among India's most trusted job-work applicators, serving a diverse range of industries. We are also the only company in India equipped with the facilities and technical expertise to handle **coating jobs up to 12.5 meters in length**, setting new benchmarks for precision and scale.

Our in-house capabilities include anodizing, powder coating, PVDF coating, and industrial & automotive liquid painting and in this year of celebration, we proudly add another feather to our portfolio with the launch of advanced **PVD coating** services.

Aligned with international corporate standards, Real Surface Finish continues to lead through innovation, reliability, and world class finishing solutions across India and beyond.

We cater to architectural, interior design, agricultural, and other industrial sectors, as well as luxury segments such as jewellery, watches, cutlery, bathroom fittings, and furniture, delivering coatings that combine durability with aesthetic excellence.

Real Group Success Story Continues.....

WHY REAL GROUP

Backed by international corporate standards, robust infrastructure, and a legacy built on trust, Real Surface Finish continues to set the benchmark for performance, durability, and aesthetic excellence. When you choose **Real**, you choose precision, consistency, and results that stand the test of time.

OUR VISION

To become the global benchmark in surface finishing by continuously advancing our technologies, expanding our world-class infrastructure, and delivering innovative, reliable, and high-performance coating solutions. We envision a future where Real Surface Finish sets new industry standards through precision engineering, sustainable practices, and customer-centric excellence across every sector we serve.We strive to inspire trust by offering unmatched scale, consistent quality, and comprehensive surface finishing solutions under one roof — empowering architects, industries, manufacturers, and premium brands to realise their creative and functional ambitions.By nurturing innovation, investing in people, and embracing global best practices, we aim to remain India's most preferred surface finishing partner while steadily strengthening our position on the international stage.

We believe Equality, by working in a factory with safety and dignity, women can become self-reliant, which is an example of true women empowerment.

POWDER COATING

The Reason, **Real Surface Finish**
One of the only Premium Powder Coater in India.

We are passionate about the process, practices and equipment we use in order to provide the best finish possible that only powder coating can guarantee.

Tough, cost-effective and customizable, powder coating brings a beautiful, superior finish that resists the corrosion, damage, abrasion and color fading that traditional liquid paint coating is susceptible to.

LIQUID COATING

Liquid painting is a treatment for surface metals relying on a spray gun. The coating is sprayed on the surface in one or more layers depending on the type of liquid enamel used and the goals of the painting (primer, finish, intermediate layer).

Industrial liquid paint is applied to all types of metals and it has a high elastic resistance to impacts, chemical substances, and fire (for certain types of paint), as well as high corrosion protection.

How Powder Coating Suits Your Product

- Excellent Impact & Mar Resistance
- Variable Thickness
- Excellent Weatherabilty
- Colors, Textures & Gloss Level Option

Substrates Coated

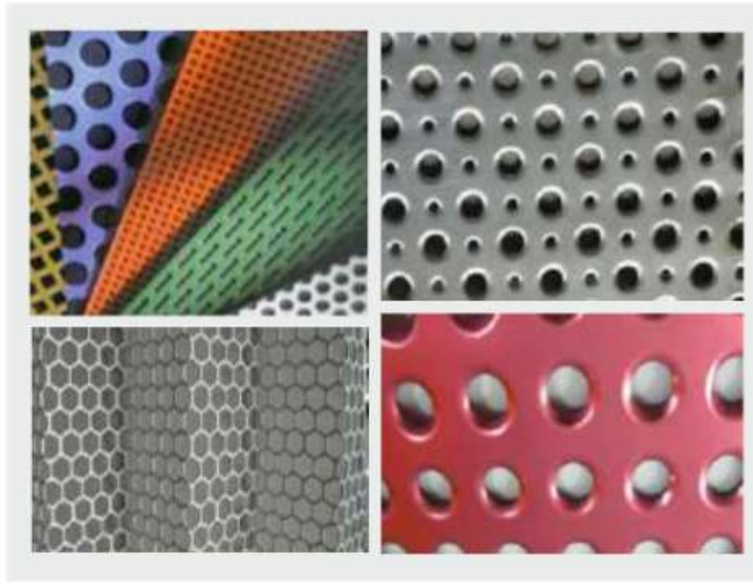

- Cold Rolled/Hot Rolled Steel
- Galvanized Steel, Copper/Brass
- Magnesium, Stainless Steel
- Aluminum Extrusions & Castings
- Powder Metallurgy Parts
- Some Non-Metallics

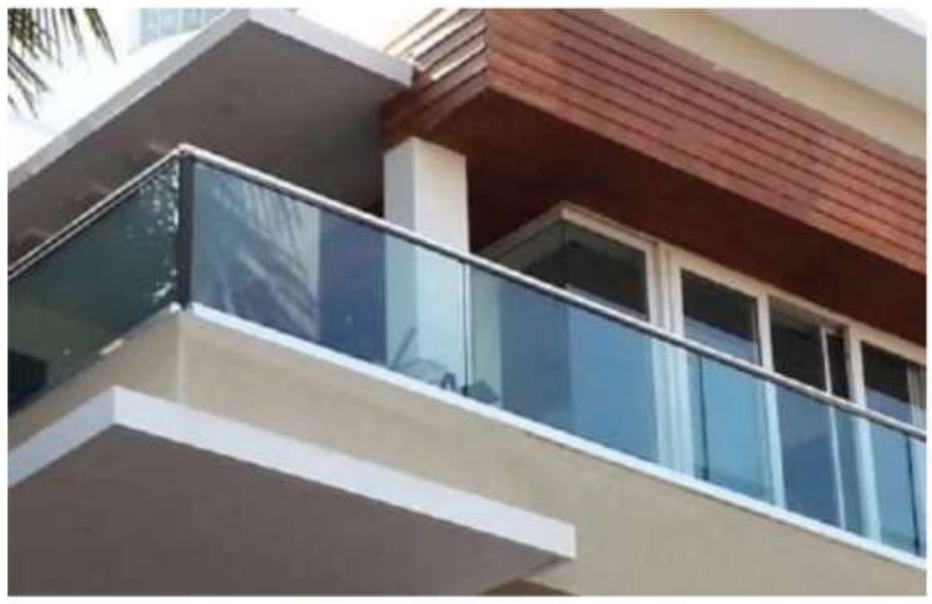

PVDF COATING

Aesthetics with Durability

India's top companies in architectural coatings associates with **Real** as its qualified applicator to address the high end expectation of projects specified to AAMA 2605 voluntary specification standards (Organic Coatings on Aluminium Sections & Profiles)

PVDF coatings are made up of inorganic ceramic pigments and PVDF fluoropolymer resin makes them one of the near inert coatings available that strongly resist UV degradation of sun rays thus keeping the facade beautiful for decades while protecting the aluminium from corrosion effect of climatic atmospheric oxidation. In addition to UV resistance PVDF also resist acids, alkalis, detergents, mortar, window and facade cleaners etc thus enhancing the life of the facade beauty.

Real offers superior 70% PVDF finish in Solid & Sparkle colours. Sparkle colours are available in 2 variants 2 coat pearlescent sparkles & 3 coat aluminium metallic sparkle with an additional clear coat for an extra protection and better aesthetics for high end projects.

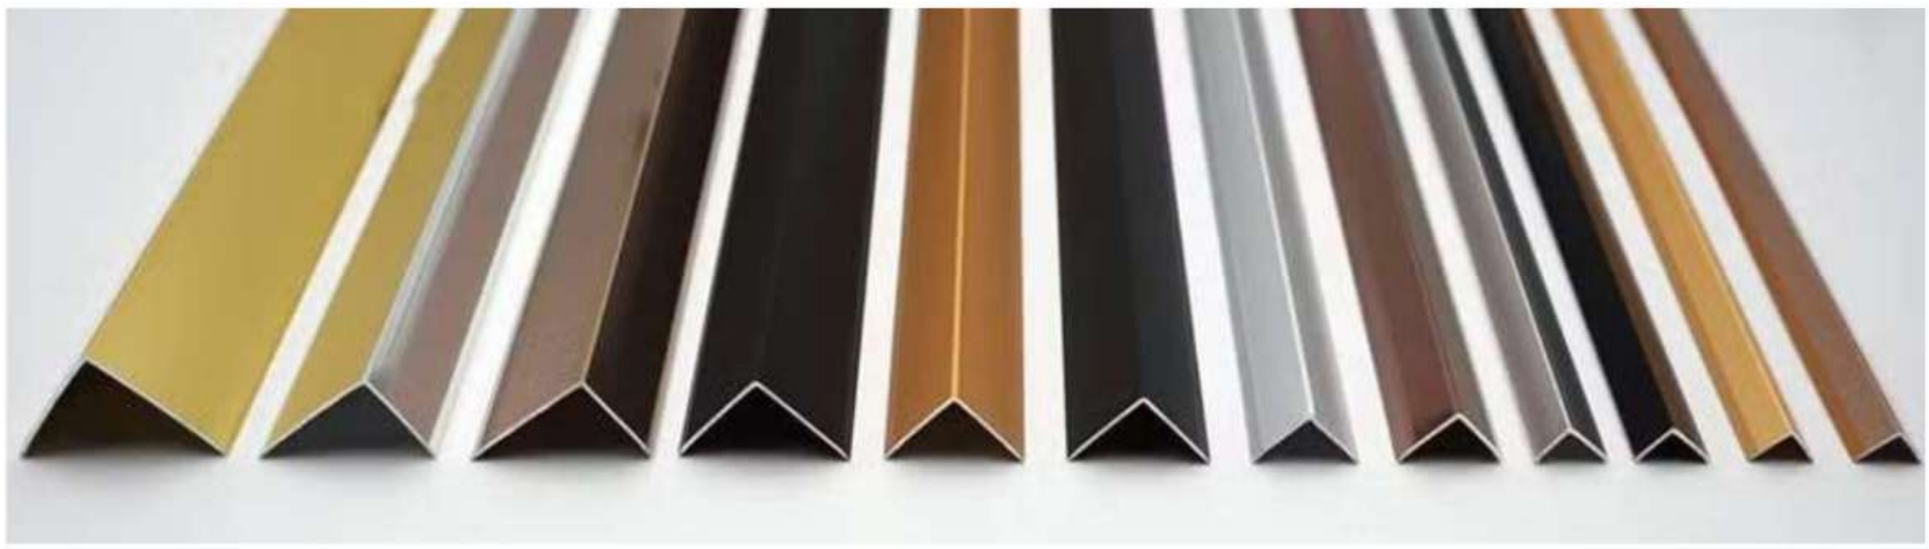

ANODIZING

Technology meant to last

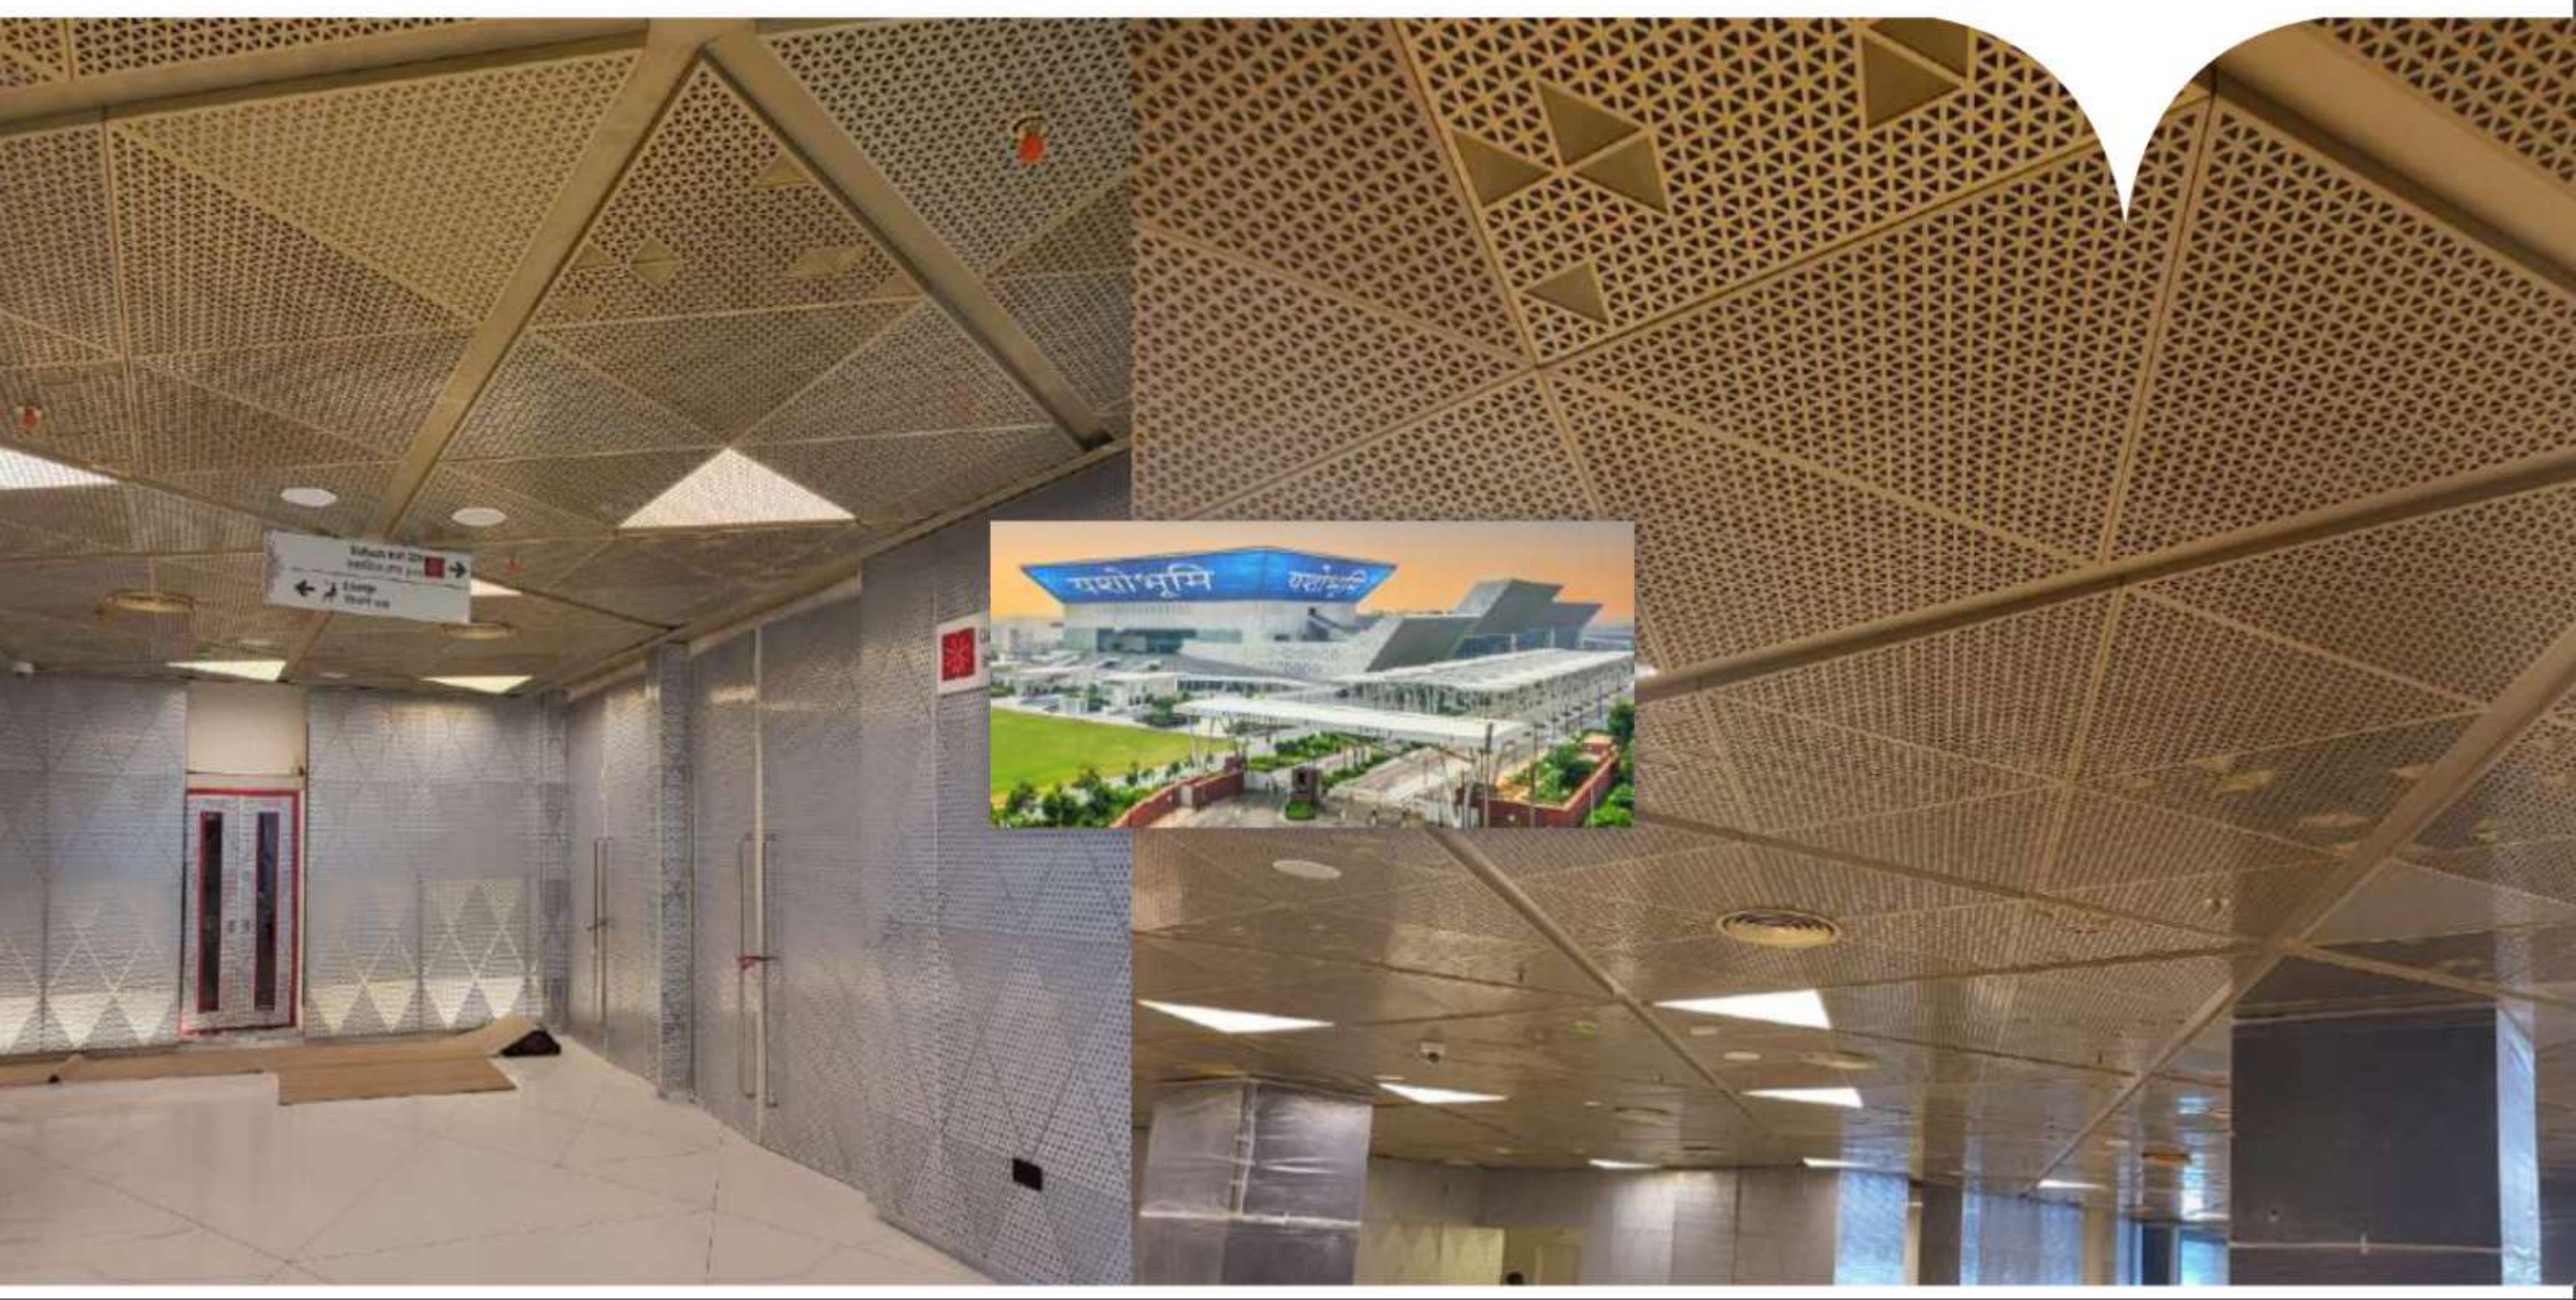

Real offers the world's best metal finishes in Class 1 Anodising. The Process involve developing an oxide layer on the Aluminium surface that is harder than the original Aluminium surface, makes it more corrosion-resistant. **Real** Class 1 Anodizing not only protects aluminium from corrosion but also adds to the aesthetic appeal and thus increases the life of aluminum.

Other than architectural applications, anodizing serves a lot of industrial and electrical applications like cable trays, heat sinks, fabricated product solar profile & Aluminium gratings etc.

Real offers Anodizing upto 25 microns thickness in complete variety of shades from silver, steel finish, champagne, light bronze, medium bronze, dark bronze and black shades in brush, frost, glossy, satin and matt finishes using imported chemicals from world leaders.

REAL WOOD FINISH

SAVE FORESTS

For Future Generations

Eco - friendly substitute of RealWood

Many people want the aesthetic of wood without the associated maintenance requirements. That's why **RealWood** finish is such a good option. It offers the warm, comforting aesthetic of wood with the strength, durability and low - maintenance of aluminum. **RealWood** goes for the Weather Shield wood finish product line with wide range of natural color selections let you customize the look any way you want.

Salient Features of RealWood

- Sophisticated computerized coating process where exact replica of any given wood can be coated on aluminium and any other metal.
- Natural decor to suite the interior and exterior designing.
- Best Alternatives of natural wood.
- Economical, Durable and Environment friendly.

PVD COATING

At RPC PVD COATING PVT. LTD. we specialise in PVD (Physical Vapour Deposition) coating on a wide range of materials, especially stainless steel, ceramic, brass, aluminium, consisting of architectural and hardware fittings. We can handle products up to 9 feet, with custom sizes and fittings available on request.

Make Every Surface Stand Out

With RPC PVD Coating, every piece becomes a work of art. We offer a range of elegant colours and premium finish options to suit every style and application.

Colour Options :

Gold

Champagne Gold

Rose Gold

Bronze

Chocolate

Each colour is carefully coated to provide rich tones and long-lasting protection, making it ideal for both interior and exterior use.

WHERE IS I T USED.....

1. **Architecture & Interiors :** Wall cladding, rafters, partitions, and steel trims for a modern look.
2. **Steel Products :** Enhancing durability and style for structural and decorative steel.
3. **Furniture & Hardware :** Cabinet handles, profiles, and accessories that look great & atractive
4. **Ceramics & Tiles :** Beautiful edge trims and transition profiles for floors and walls and ceramic kitchen cutlery.
