RECURSIVE INFO PVT. LTD.

esyGLASS™

A Total **ERP Software** for
Toughened Glass Processing Industries

A ONE STOP
SOFTWARE SOLUTION
FOR ALL OF YOUR GLASS
PROCESSING NEEDS

About Us

Recursive Info Pvt. Ltd. stands as a pioneering force in the realm of software design, boasting a rich history spanning over two and a half decades. With an unwavering commitment to innovation and excellence, the company has solidified its reputation as a trusted partner for businesses seeking transformative software solutions. Recursive Info Pvt. Ltd. has garnered particular acclaim for its profound involvement in the Glass Industry where its bespoke software offerings have revolutionized operations, streamlined processes, and driven efficiency to new heights.

Vision

To be the top provider of software solutions that enable glass manufacturers to achieve maximum efficiency and innovation.

Mission

To revolutionize the glass manufacturing sector with tailored software that boosts production, minimizes waste and promotes growth.

esyGLASS™

Empowering toughened glass manufacturing companies, ***esyGlass*** is a software solution designed to enhance precision, efficiency, and quality control. It offers a comprehensive digital platform with features like order management, production optimization, quality control, and inventory tracking. ***esyGlass*** aims to help manufacturers exceed industry standards and streamline operations, positioning itself as essential for success in toughened glass production.

Welcome to the future of precision processing.

Welcome to esyGLASS™

VERSION

1 OFFLINE / DESKTOP VERSION

The offline or desktop version can be accessed on your systems via LAN or Remote Desktop, with data stored on your server computer. This version is ideal for factories located in remote areas where internet connectivity may be limited.

2 ONLINE / BROWSER VERSION

The online or browser-based version allows you to operate the software from any location with internet access, with data securely stored on the cloud. This version is especially valuable for managing factories in multiple locations, as it provides convenient remote access.

3 ONLINE + APP. VERSION

This version offers the convenience of accessing the software on mobile devices, including Android, iOS, and Microsoft phones. Additionally, if a barcode feature is integrated within your production facility, the app allows for seamless production entry through mobile.

4 TRADE VERSION

This version is designed specifically for glass retail vendors, providing comprehensive features from PI creation to financial accounting. It is highly beneficial for retail shops, enabling them to generate PI with customized billing charges tailored to different customers.

ARCHITECTURE AUTOMOTIVE APPLIANCES

PI / Work Order

Enter the sizes in MM/Inch and calculation can be done in Mt/Ft

Sizes can be imported from excel and can be exported to excel

Set production route

Different PI and Work order formats

Rate Master

Set rate according to customer and customer grade

Define glass rates, DGU, Lamination process rates and other charges rate

Customized slabs for jumbo charges

Optimizer / Rounder

Calculate glass wastage rounding by optimizing the sheets PI wise as well as multiple glass-wise

Customized export sheets for optimizing glass sheets

Indent / Production

Department-wise production

Order status, pending production and production status

Breakage's department, cause of the breakage

Indent for Raw material selection

Planning

Planning according to machine's capacity, employee's efficiency thus ensuring maximum production and minimum wastage

Planning according to route, thus ensuing maximum utilization of loading capacity and reducing the transportation cost

Barcode Integration

- Customized barcode design as per your requirement
- Print barcode sticker from every stage
- Automatic data entry in the software with the help of barcode gun

Invoice / Challan

- Tax invoice, Job-work invoice, Scrap invoice, Hardware invoice, other material invoice
- Delivery Challan/ Packing slip
- Ready to dispatch, gate pass
- Create E-invoice and E-way bill through a single click
