About Lesso

LESSO Group, started in 1986, is world-wide leading industrial group of home building material, listed in Hong Kong Stock Exchange (stock code: 2128). The range of products include uPVC Profile, uPVC plumbing products, sanitary ware, CP fittings, modular kitchen, decorative plates, fire-fighting equipments, water purifiers, electrical switches & sockets, wooden doors etc. Ranking among the toppest in uPVC pipe manufacturers in the world, the sales revenue in 2021 is over 37000 Crore Indian Rupees.

With rapid global development of its business, LESSO Group has a total of 30,000 employees in 80 holding subsidiaries and more than 23 production bases distributed in 18 provinces of China, US, Canada, India, Dubai, Oman, Indonesia and Uganda etc. LESSO Group has continually perfected its strategic layout and broadened its sales network and market, to provide products and services to customers in a timely and efficient way.

Lesso Buildtech Pvt Ltd, started in 2012 in India as its headquarters in Gurgaon and Regional offices are in Bengaluru, Mumbai, Chandigarh, Kolkata, Lucknow, Chennai, Hyedrabad and Ahmedabad.

LESSO Buildtech Pvt. Ltd. is wholly subsidiary of LESSO Group represented internationally. In India, LESSO is the leading manufacturer of uPVC Windows & Doors Profile; and also have absorbed decades of field experience in trading of comprehensive range of building material, including modular kitchen, uPVC Pipes, decorative boards etc. At LESSO, our philosophy is to persistently, continually upgrade, innovate our product and services in a productive way for setting a benchmark of excellence in all the building material solutions.

About uPVC

uPVC (Un-plasticized Poly Vinyl Chloride) is one of the most versatile Polymer found in the century. uPVC has evolved from basic plastic to one of the most advanced and researched products in the world, like DNA manipulation, researchers have managed to add all the benefits of wood and aluminum while excluding all their weaknesses. uPVC is most often the choice of the building industry as a low-maintenance and relatively low cost building material. It can come in wide range of finishes as well as colors and is often used as a substitute for wood in places such as window frames, siding and weather boarding.

Advantages of uPVC Windows & Doors Profile

THERMAL INSULATION AND ENERGY EFFICIENT

uPVC Windows and Doors profile has a low thermal conductive, which can reduce the loss of energy. They are designed with multi-chambers which also reduce the transmission of heat.

WATER TIGHTNESS

uPVC Windows and Doors profile absorbs water below 0.1%. Moreover the uniquely designed weep hole and weather strip in the meeting rail provide water resistance proof.

SOUND INSULATION

The multi-chambers, welded corners and tight seals offer excellent sound insulation.

TERMITE PROOF

uPVC Windows and Doors are not affected by Termites.

STRENGTH AND SECURITY

All main uPVC profiles are reinforced with steel, providing a high level of security.

WEATHER RESISTANCE

uPVC Windows and Doors are exposed in scorching sun, storms, dryness, high humidity or other extreme weather change. They do not rot, corrode nor warp. Even after many years, the windows and doors are still attractive, perfectly tight and working well.

MAINTENANCE FREE

The closed smooth surface of uPVC profiles ensures ease of clean by using gentle household detergent dissolved in water. They are also available with a foil coating in different colors, so you do not need to paint it.

ENVIRONMENTAL FRIENDLY

Lead free, consumes less power while extruded and are completely recyclable due to the presence of calcium zinc stabilizer.

CORROSION RESISTANCE

uPVC Windows and Doors profile is free from the attack of acids, alkalis, waster gases and salts.

FIRE RESISTANCE

uPVC material used in Windows and Doors are difficult to ignite and do not support or enhance accidental fires unlike their timber counterparts.

ELECTRICITY INSULATION

uPVC Windows and Doors profile has high electricity insulation.

POLLUTION RESISTANCE

uPVC Windows and Doors is stable material so it is pollution resistant.
