PERFECT SEALING FOR EVERY SURFACE

About Us

Based out of India, Bondzil manufactures 30+ superior-quality, high-performance automotive silicone sealants.

Our highly efficient automotive silicone sealants represent the culmination of substantial technological investment, exhaustive research, and uncompromising commitment to superior quality standards.

At Bondzil, our core team is composed of dynamic and ambitious entrepreneurs who have a unified vision and streamlined objectives.

Our leadership team ensures that our company thrives with unwavering passion, boundless energy, and an unrelenting pursuit of progress in tandem with the ever-changing times.

Vision

To be the largest national & global producer of silicon sealants.

Mission

Engage with the different stakeholders & spread awareness about the sealing solutions.

Consistency evolve & adapt to technological changes while bringing effective products.

Attract talent, nurture innovation & build strong work culture in the organization with integrity & trust.

Trusted Seal of Quality

Certified and Assured by Internaltional Standards

ISO bsi. ASTM INTERNATIONAL DIN CERTCO

Our Presence Across the World

Overseas Export to more than 30 countries

Sales & administration Office: Ahmedabad
Warehouse facility: Ahmedabad
Manufacturing Unit 01: Rajkot
Manufacturing Unit 02: Ahmedabad

Specialised Brand Trusted Worldwide

Bondzil® FIXISIL® seelento

Enablers of Excellence

Infrastrcuture Facility

Our advanced manufacturing facility is equipped with industry-leading technology, ensuring the highest standards of quality.

Complete Inhouse Operations

From R&D to manufacturing and packaging, every step is handled in-house for uncompromising quality.

Research & Development

Our innovations come from our in-house R&D Laboratory, committed to developing sealing solutions.

Production Capacity

We are capable of producing massive volumes as large as 1 lakh units per day, fulfilling the increasing market demand.

PREMIUM AUTOMOTIVE INDUSTRY

Powerful Sealants For Secure Bonds

At Fixisil, we engineer high-performance sealants designed to fix, seal, and bond with precision and long-lasting strength.

Our customised solutions are trusted by professionals across industries and geographies.

From compact applications to large-scale industrial use, Fixisil delivers reliability that lasts. We combine uncompromising quality with ongoing innovation to meet evolving needs across sectors.

Solutions that Fit Every Purpose

Sealants developed for high-performance, strong adhesion, and flexible durability across a wide range of applications

MS Polymer Sealants: Gun-grade, flexible sealants offering strong adhesion, UV resistance, and eco-friendly performance, ideal for diverse interior and exterior applications.

General Purpose Sealants

General Purpose Sealants

B-704

B-704 General Purpose IS Silicon Sealant is a one-component, acid-curing sealant for sealing. It cures at room temperature with atmospheric moisture to form permanently flexible silicon rubber, offering excellent primerless adhesion to glass, tiles, ceramics, enamel, glazed tiles, painted wood and some plastics.

Colors:

Packaging: 260ml x 25

B-705

B-705 General Purpose QUIK Silicone Sealant is a general purpose single component sealant, high grade Acetic cure silicone sealant that vulcanizes on exposure to moisture in the air at room temp, to produce a flexible elastomeric sealant. It is suitable for all common construction and glazing applications.

Colors:

Packaging: 280ml x 25

B-706

B-706 General Purpose G.A.Q Silicon Sealant is a single-component, acetic-cure silicone sealant for glass, glazing, aquariums and wet areas. It offers easy application, strong adhesion, waterproof sealing, mildew resistance and protection against ozone, UV and temperature extremes.

Colors:

Packaging: 280ml x 25

B-707

B-707 General Purpose IS+ is a fast-curing, one-part silicone adhesive sealant that cures with atmospheric moisture into a high-strength rubber seal. It offers excellent adhesion to glass, glazed surfaces, metals, most plastics and painted/coated surfaces, with durable performance across high and low temperatures.

Colors:

Packaging: 280ml x 25

Neutral Sealants

Neutral Sealants

B-721

B-721 NEUTRAL Silicone Sealant is a single component Neutral Cure Silicone Sealant. The non-staining properties make it ideal for granite and marble applications. It is particularly suitable for indoor and outdoor applications. It is resistant to Ozone, UV and temp extremes.

NP
Colors:
Packaging: 270ml x 25

NW
Colors:
Packaging: 270ml x 25

B-722

B-722 NEUTRAL UNIVERSAL Silicone Sealant is a Neutral cure, silicone sealant, exclusively created for weather sealing and glazing application. It forms highly resistive weatherproof seal on windows and building facades. It is also suitable for sealing applications on the surfaces where acetoxy silicone is not desired.

FDA APPROVED

GM
Colors:
Packaging: 280ml X 25

PS
Colors:
Packaging: 280ml X 25

Neutral Sealants

B-723

B-723 Neutral Sanitary K&B Silicone Sealant is a one-component, moisture-curing neutral silicone sealant for sanitary and wet area applications. It offers non-corrosive, mold-proof and chemical-resistant sealing for connection joints between various substrates.

Colors:
Packaging: 280ml X 25

B-724

B-724 Silicone Sealant PS is a cost-effective, single-component, neutral-cure, specially developed for construction applications. It is ideal for the interior & exterior application of under-construction buildings. It is ideal for various substrates like Glass, Bricks, Wood, ACP, Door & Window Frames, Aluminium Channels, etc.

Colors: Ralcolors
Packaging: 280ml x 24 | 600ml x 24

Neutral Sealants

B-727

B-727 Silicon Sealant IS is a versatile, cost-effective, single-component neutral-cure sealant for interior and exterior applications. It offers excellent sealing, bonding and resistance to UV, moisture and fungi, making it suitable for sanitary joints, cold storage and air-conditioning sealing.

Colors:

Packaging: 300ml x 25

B-728

B-728 Silicone Sealant IS is a one-component, non-slumping, low-odour silicone adhesive/sealant for high-temperature formed-in-place gaskets. It cures into silicone rubber, resisting aging, weathering, thermal cycling, hardening, shrinking and cracking.

Colors:

Packaging: 300ml x 25

B-729

B-729 Silicone Sealant IS is a one-component, non-slumping, low-odour silicone adhesive/sealant for high-temperature formed-in-place gaskets. It cures into silicone rubber, resisting aging, weathering, thermal cycling, hardening, shrinking and cracking.

Colors:

Packaging: 300ml x 25

B-731

B-731 Sealmaxx RTV Silicone is a single-component, room-temperature vulcanizing gasketing compound for formed-in-place gaskets in mechanical assemblies. It cures with moisture into tough, flexible silicone rubber, resisting aging, weathering, thermal cycling, oil and high temperatures.

Colors:

Packaging: 300ml x 25

Neutral Sealants

B-732

B-732 Gasket Maker High Temp. RTV Silicone is a single-component, room-temperature vulcanizing gasketing compound for formed-in-place gaskets in high-temperature mechanical assemblies. It cures into tough, flexible silicone rubber, resisting aging, weathering, thermal cycling, oil and high temperatures.

Colors:

Packaging: 280ml x 25

B-733

B-733 Thermseal Silicone Sealant is a single-component, neutral-cure RTV gasketing compound for high-temperature formed-in-place gaskets. It cures into tough, flexible silicone rubber, resisting cracking, shrinkage, aging, weathering, thermal cycling, oil and high temperatures; also suitable for coating pre-cut gaskets.

Colors:

Packaging: 280ml x 25

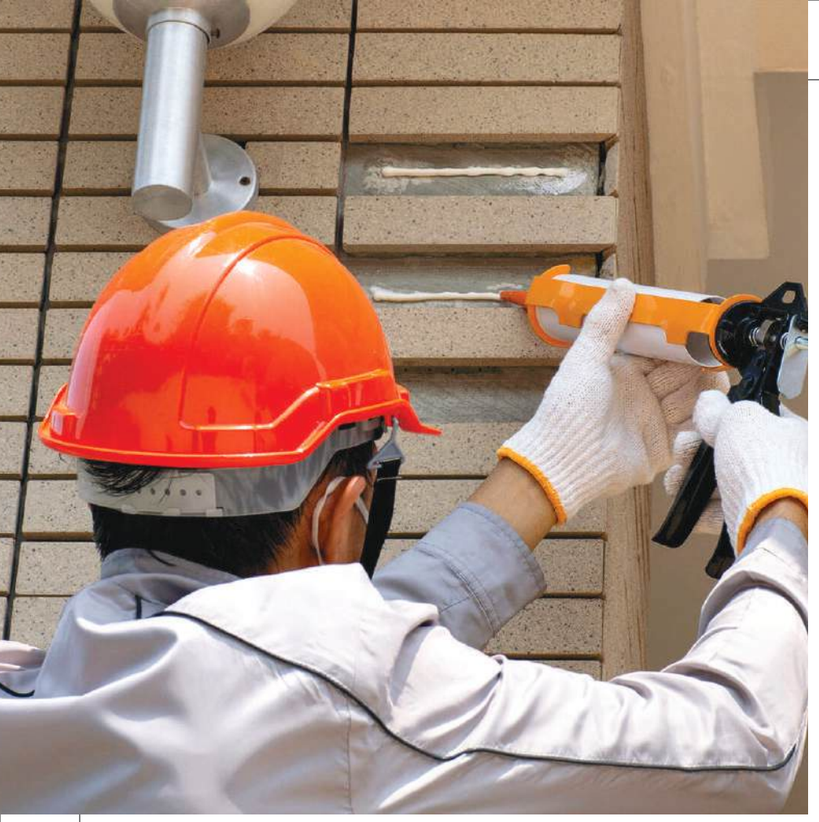

B-770

B-770 Solar Sealant PV is a one-part PV-grade, all-weather, neutral-cure, non-corrosive PV+ silicone adhesive sealant for solar panel circuits and contacts. It offers excellent resistance to weathering, UV radiation, vibration, moisture, ozone, airborne pollutants, temperature extremes and cleaning detergents.

Colors:

Packaging: 300ml x 25

Hybrid Sealants

Hybrid Sealants

B-711

B-711 Industrial Sealant/Adhesive is a strong, elastic polyurethane adhesive for bonding and sealing industrial/commercial vehicles. It offers resilience, recovery and temperature resistance, bonding FRP, GRP, timber, treated metals, ceramics and plastics for OEM, repair, defence and marine applications.

Colors:

Packaging: 850g x 25

Colors:

Packaging: 600ml X 20

B-712

B-712 Construction Sealant / Adhesives is a strong and permanently elastic adhesives for bonding and sealing in the building & construction industry and various other commercial and industrial applications. It is highly resilient and has excellent recovery characteristics.

Colors:

Packaging: 850g x 25

Colors:

Packaging: 600ml x 20

Flowable Sealants

B-715

B-715 NO NAIL Construction Adhesives is a strong and permanently elastic adhesives. It is a 1 Component High Grab adhesive that cures in presence of atmospheric moisture. It also provides primer less adhesion to most surfaces without any mechanical support like clamping or nailing.

Colors:

Packaging: 425g x 25

Hybrid Sealants

B-791

B-791 HYB CLEAR Silicone Sealant is See through clear, Hybrid neutral, elastic, single component sealant/adhesive based on MS Polymer Technology & it is solvent-free and isocyanate-free sealant. It also combines the strength of polyurethanes with the weathering resistance of silicones.

Colors:

Packaging: 290ml x 25

B-793

B-793 HYB QUIK is a high quality, Hybrid neutral, elastic, one-component adhesive-sealant with very faststrength build-up based on MS Polymer Technology & it is solvent-free and isocyanate-free sealant. It also combines the strength of polyurethanes with the weathering resistance of silicones.

Colors:

Packaging: 290ml x 25

B-794

B-794 HYB HT is a high quality, neutral, elastic, one-component adhesive sealant based on SMX-Polymer with a very high tack.

400 kg/m²

Colors:

Packaging: 290ml x 25

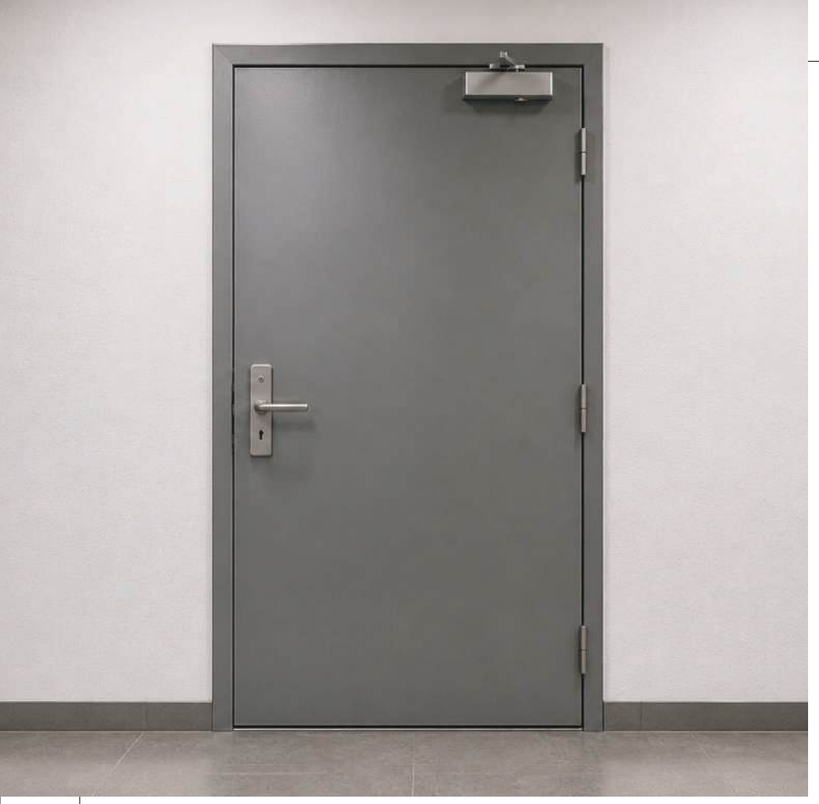

B-795

B-795 FIXISIL HYB ELASTIC is a high quality, neutral, elastic, 1-component adhesive sealant based on MS Polymer Technology. It can be used for many construction as well as industrial application

Colors:

Packaging: 290ml x 25

Fire Stop
Sealants

Fire Stop Sealants

B-743

B-743 Acoustic Sealant is a high-quality, highly elastic, water-based paintable sealant for internal and external sealing. Suitable for caulking, grouting, jointing, acoustic assemblies and building construction, it is compatible with most construction materials.

Colors:

Packaging: 280ml x 25

B-744

B-744 Acryfill AFIM FR is a one-component plastoelastic acrylic joint sealant for fire-rated vertical and horizontal construction joints. It provides 4–5 hours fire resistance, movement capability, sound reduction support, low odour, non-corrosive performance and insulative char formation during fire.

Colors:

Packaging: 280ml X 25
Available in Sausage Packaging

B-745

B-745 Silicone Sealant FR is a high-quality, single-component, gun-grade, neutral-cure multipurpose sealant forming elastomeric fire-retardant seals in construction joints. It helps control fire, smoke and toxic fumes for 4–5 hours, with excellent UV resistance.

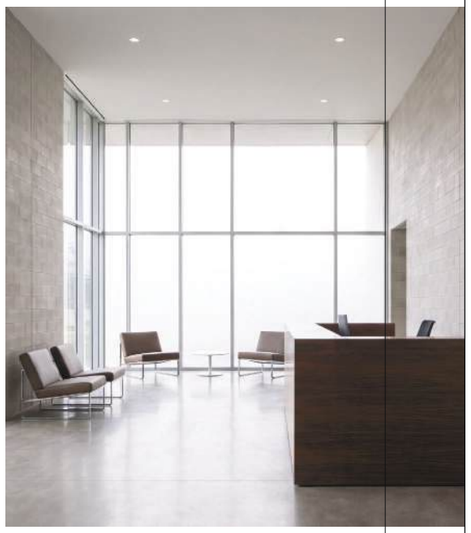

Colors:

Packaging: 280ml X 25
Available in Sausage Packaging

Acryfill Sealants

Acryfill Sealants

B-750

B-750 Acryfill Silicon Sealant is a single-component, gun-grade acrylic emulsion sealant that provides a smooth, paintable fill. Ready to use and easy to apply, it seals low-movement internal and external joints in concrete, plastics, cement, brickwork and wood.

Colors:

Packaging: 410g x 25

B-751

B-751 ACRYFILL PS is a high-quality, plasto-elastic one-component joint sealant based on acrylic dispersions, Paintable Acrylic Sealant for Gaps & Cracks. Siliconised formulation, improved adhesion to full range of construction substrates.

Colors:

Packaging: 280ml x 25 | 450g x 25

B-752

B-752 Acryfill Window-Fix is a high-quality, highly elastic acrylic sealant for internal and external sealing of door and window gaps in aluminium, uPVC and wood. Paintable and UV-resistant, it withstands ±12.5% movement, climate changes and vibrations.

Colors:

Packaging: 270ml x 25 | 405g x 25

B-753

B-753 Acryfill crackfiller Silicone Sealant is a single-component, gun-grade acrylic emulsion sealant for smooth, paintable filling of moderate-stress joints. Ready to use, it seals internal/external porous substrates and low-movement connections in aluminium, uPVC, steel doors/windows, concrete, brickwork and wood.

Colors:

Packaging: 425g x 20

Acryfill Sealants

B-754

B-754 Acryfill DW+ is a high-quality, highly elastic acrylic sealant for internal and external sealing of door and window gaps in aluminium, uPVC and wood. Paintable and UV-resistant, it withstands ±10% movement, climate changes and vibrations.

Colors:

Packaging: 280ml x 25 | 450g x 25

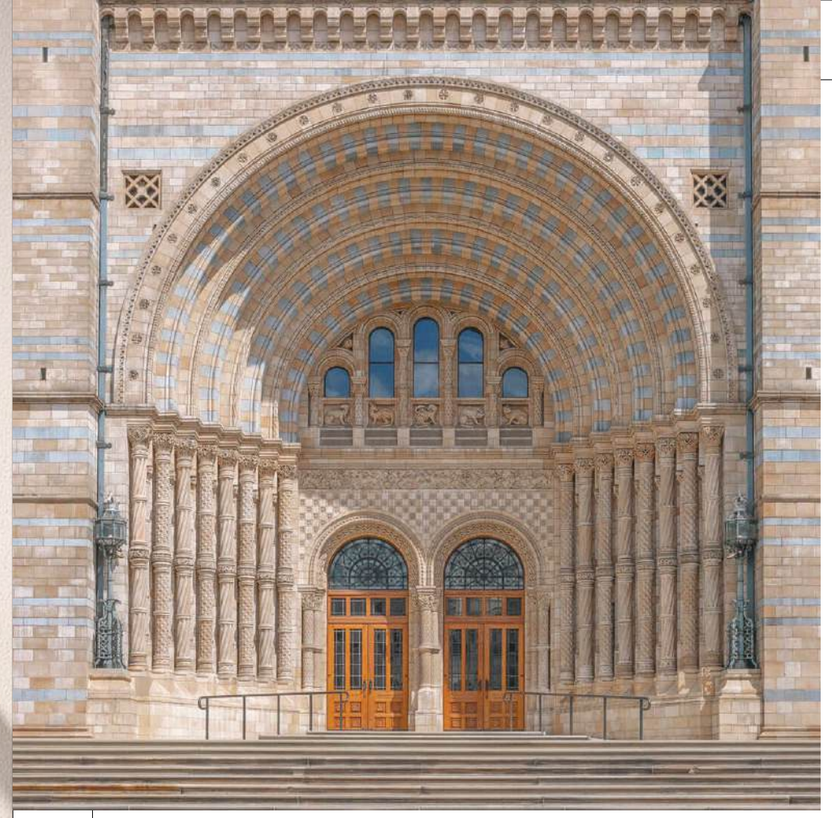

B-755

B-755 Acryfill Silicone Sealant is a single-component, gun-grade acrylic emulsion sealant that provides smooth, paintable filling. Ready to use and easy to apply, it seals low-movement internal and external joints in concrete, plastics, cement, brickwork and wood.

Colors:

Packaging: 270ml x 25 | 425g x 25

Weather Sealants

Weather Sealants

B-779

B-779 WEATHER SILICONE SEALANT is a one-part, neutral-cure, architectural grade sealant. It easily extrudes in any weather and cures at ambient temp by reaction with moisture in the air to form a durable, flexible silicone rubber seal.

Colors: ○

Packaging: 280ml x 25

Colors: ○

Packaging: 600ml X 20

B-780

B-780 WEATHERSIL ENGINEERING GRADE Silicone Sealant is a high-quality, neutral, elastic one-component joint sealant. It is specially designed for sealing expansion joints & control joints, precast concrete panel joints, non-structural curtain wall, mullion joints & stress cracks in parapet walls.

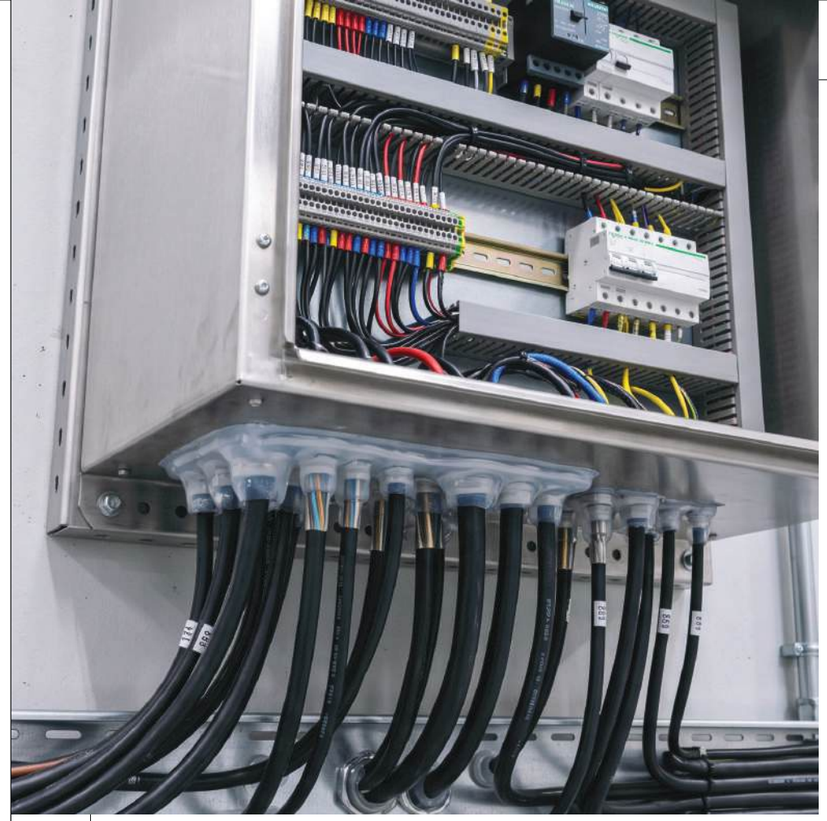

Colors: ○

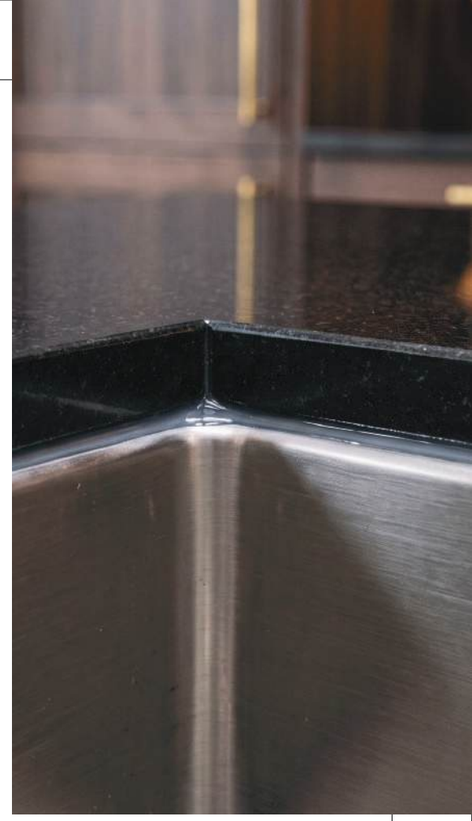

Packaging: 300ml x 25

Colors: ○

Packaging: 600ml x 20

Flowable Sealants

Flowable Sealants

B-735

B-735 Flowable RTV SEALANT is a one part Sealant / Adhesives. It is single component flowable and self-levelling easy to apply cures to a tough, flexible rubber with faster Tack free time and provided good adhesions to many substrates.

Colors: ○ ● ●

Packaging: 280ml x 25

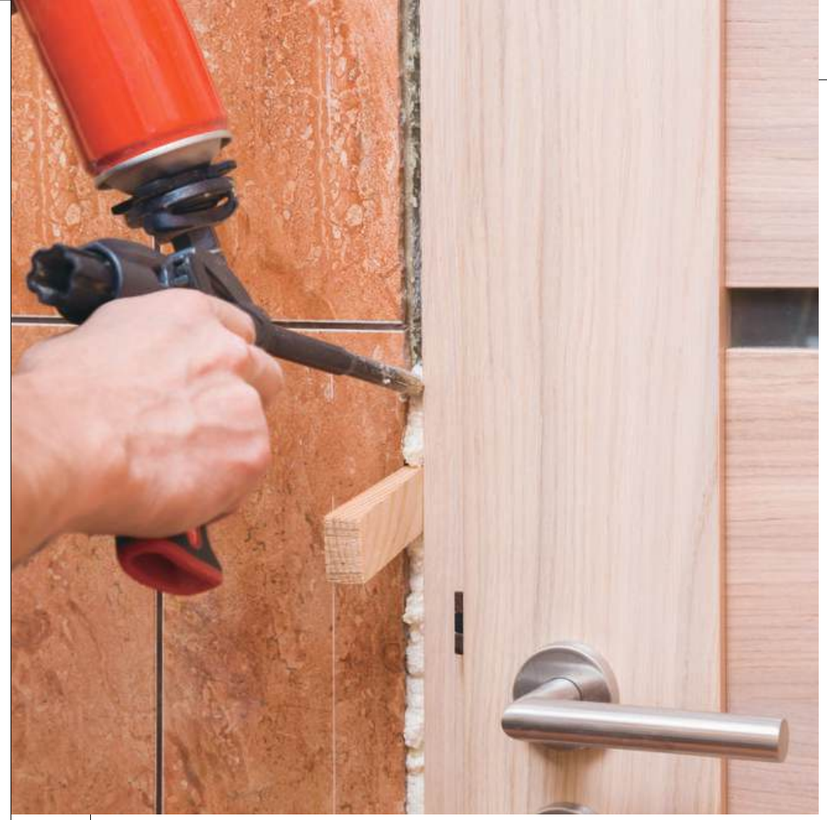

B-736

B-736 Flowable RTV Sealant is a one part Sealant / Adhesives. It is single component flowable and self-levelling easy to apply cures to a tough, flexible rubber with faster Tack free time and provided good adhesions to many substrates.

Packaging: 280ml x 25

PU Foam

PU Foam

B-790

B-790 Foam-X Multi-Purpose Self Expanding Foam is a ready-to-use, polyurethane foam that expands higher than its original volume when it comes in contact with air.

Colors:

Packaging: 750ml x 12

B-795

B-795 Foam-X Firestop Polyurethane Foam is a one-component, self-expanding, ready-to-use PU foam for filling gaps, holes, cracks and cavities. It expands on air contact, offers insulation and adhesion to building materials, and protects against air, moisture and pest infiltration.

Colors:

Packaging: 750ml x 12

PU & MS Sealants

PU & MS

B-2129 MS

B-2129 FIXISIL MS is a gun-grade, one-component Silyl-Terminated Polymer sealant that cures with moisture into a soft elastic product. Free from solvents, isocyanates, silicones and PVC, it offers excellent adhesion, overpaintability and UV-resistant performance for interior and exterior applications.

Colors:

Packaging: 300ml x 25 | 600ml x 20

B-2120 MS

B-2120 FIXISIL MS is a gun-grade, one-component Silyl-Terminated Polymer sealant that cures with moisture into a soft elastic product. Solvent-, isocyanate-, silicone- and PVC-free, it offers adhesion, overpaintability, UV resistance and resilient bonding/sealing for vehicles, containers, FRP, GRP, timber, metals, ceramics and plastics.

Colors:

Packaging: 300ml x 25 | 600ml x 20

B-2020

B-2020 PU Fixisil Auto Glass Expert is a one-component, moisture-curable polyurethane sealant for front and back glass bonding in 4-wheelers, ideal for the after-sales car market. It offers excellent bonding and sealing performance, high viscosity, fast curing, strong adhesion, smooth finish, bubble-free application and

Colors:

Packaging: 300ml x 25 | 600ml x 20

PU & MS

B-2111 PU Fixisil

B-2111 FIXISIL PU Sealant / Adhesive is a strong, permanently elastic polyurethane adhesive for bonding and sealing in Industrial, Bus & Coach, Trucks, Earth Moving Equipment, Tractor, Forklift, O.E.M., Repair Auto After Markets, Metro Rail, Defence, Aviation, Marine and commercial vehicle applications. Highly resilient with excellent recovery characteristics, it performs across wide temperatures and bonds FRP, GRP, timber, plywood, aluminium, sheet steel, zinc-plated components, coated metals, paint coatings, ceramics and plastics.

Colors:

Packaging: 300ml x 25

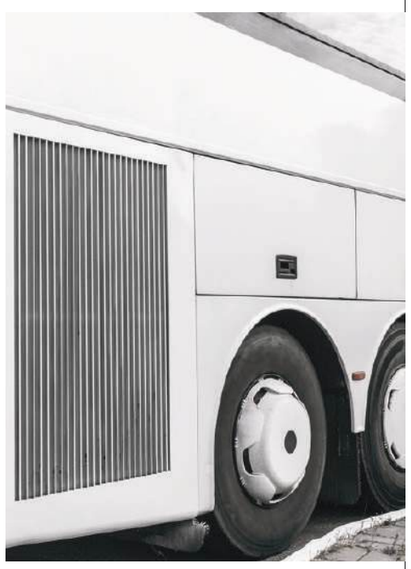

B-2112 PU Fixisil

B-2112 FIXISIL PU Sealant / Adhesive is a strong, permanently elastic polyurethane adhesive for bonding and sealing in Industrial, Bus & Coach, Trucks, Earth Moving Equipment, Tractor, Forklift, O.E.M., Repair Auto After Markets, Metro Rail, Defence, Aviation, Marine and commercial vehicle applications. Highly resilient with excellent recovery characteristics, it performs across wide temperatures and bonds FRP, GRP, timber, plywood, aluminium, sheet steel, zinc-plated components, coated metals, paint coatings, ceramics and plastics.

Colors:

Packaging: 300ml x 25

B-2115 PU Fixisil

B-2115 FIXISIL PU Sealant / Adhesive is a strong, permanently elastic polyurethane adhesive for bonding and sealing in Industrial, Bus & Coach, Trucks, Earth Moving Equipment, Tractor, Forklift, O.E.M., Repair Auto After Markets, Metro Rail, Defence, Aviation, Marine and commercial vehicle applications. Highly resilient with excellent recovery characteristics, it performs across wide temperatures and bonds FRP, GRP, timber, plywood, aluminium, sheet steel, zinc-plated components, coated metals, paint coatings, ceramics and plastics.

Colors:

Packaging: 300ml x 25

B-2120 MS Fixisil

B-2120 FIXISIL MS is a gun-grade, one-component Silyl-Terminated Polymer sealant that cures with moisture into a soft elastic product. Free from solvents, isocyanates, silicones and PVC, it offers good adhesion, overpaintability and UV-resistant interior/exterior performance. Designed for bonding and sealing in Bus & Coach, Trucks, Earth Moving Equipment, Tractor, Forklift, O.E.M., Repair Auto After Markets, Containers, Metro Rail, Defence, Aviation, Marine and industrial vehicles, it bonds FRP, GRP, timber, metals, ceramics and plastics.

Colors:

Packaging: 300ml x 25

PU & MS

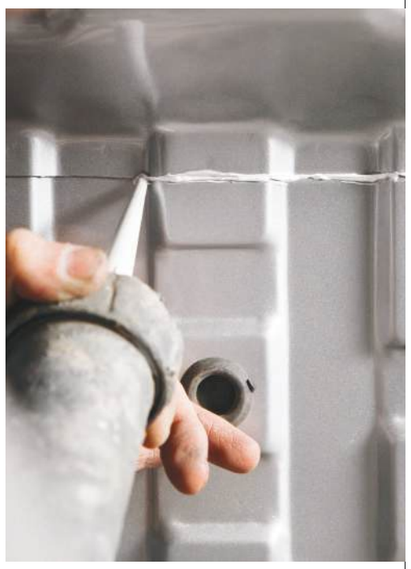

B-2121 PU Fixisil

B-2121 FIXISIL is a one-component, multipurpose elastic adhesive/sealant for permanent elastic seals and simple bonding applications. It bonds well to metals, metal primers, paint coatings, ceramics, plastics, concrete and other substrates, with impact resistance after curing. Ideal for internal sealing, it is suitable for experienced professional users. Tests on actual substrates and conditions are recommended to ensure adhesion and material compatibility, especially for materials prone to stress cracking.

Colors:

Packaging: 600ml x 20 | 10L x 1
20L x 1 | 195L x 1

B-2122 MS Fixisil

B-2122 FIXISIL is a weather-resistant, single-component Silane Terminated Polymer adhesive/sealant for elastic bonding and sealing in internal and external applications. It bonds well to metals, ABS, PC, FRP, wood, timber, metal primers, paint coatings, ceramics and plastics, usually without special treatment. Suitable for experienced professional users, it requires testing on actual substrates and conditions to ensure adhesion and material compatibility, especially on materials prone to stress cracking.

Colors:

Packaging: 600ml x 20 | 10L x 1
20L x 1 | 195L x 1

PU & MS

B-2160 PU Fixisil

B-2160 FIXISIL is a multipurpose adhesive for assembly bonding applications requiring longer working time. Easy to apply with thixotropic consistency, it bonds well to timber, metals, aluminium, sheet metal, metal primers, paint coatings, ceramics and plastics with minimal pre-treatment. Its long open time supports safe application even in warm conditions, making it suitable for vehicle manufacturing. For professional users, testing on actual substrates is recommended to ensure adhesion and material compatibility.

Colors: ●

Packaging: 600ml x 20 | 10L x 1
20L x 1 | 195L x 1

B-2163 PU Fixisil

B-2163 FIXISIL is a single-component elastic adhesive for bonding and joint sealing in commercial-vehicle glazing applications. Designed for direct-glazing, general bonding and sealing in the transportation industry, it offers good ageing and weathering resistance, excellent exterior joint performance, good tooling properties and compatibility with primerless bonding processes. Suitable for industrial professional users, testing on actual substrates is recommended to ensure adhesion and material compatibility, especially on stress-cracking prone materials.

Colors: ○

Packaging: 600ml x 20 | 10L x 1
20L x 1 | 195L x 1

PU & MS

B-2165 PU Fixisil

B-2165 FIXISIL is a single-component elastic adhesive for bonding and joint sealing in commercial-vehicle glazing applications. Designed for direct glazing in Automotive, OEM and repair markets, it offers excellent weathering resistance, good tooling properties, enhanced weathering stabilization and exterior joint performance. Compatible with black primerless bonding processes, it is suitable for experienced professional users. Testing on actual substrates is recommended to ensure adhesion and material compatibility, especially on stress-cracking prone materials.

Colors: ○ ● ●

Packaging: 600ml x 20 | 10L x 1
10L x 1 | 195L x 1

B-2190M PU Fixisil

B-2190 M FIXISIL is a one-component polyurethane-based joint sealing compound specially formulated for traditional timber marine decking applications. Designed for sealing joints in timber decking for boats, yachts and commercial ship constructions, it offers excellent weathering resistance and performs well in highly exposed open joints under marine environmental conditions. Suitable for experienced professional users, testing on actual substrates and conditions is recommended to ensure proper adhesion and material compatibility.

Colors: ○ ● ●

Packaging: 600ml x 20
20L x 1 | 195L x 1

PU & MS

B-8102 MS Fixisil

B-8102 FIXISIL is a multipurpose Silane Terminated Polymer-based sealant offering primerless adhesion to a wide range of substrates. It cures with atmospheric humidity, provides fast curing, and bonds most surfaces without special treatment. Isocyanate- and solvent-free, it is suitable for interior and exterior industrial sealing applications. It bonds well to metals, ABS, PC, FRP and wood. Testing on actual substrates is recommended to ensure adhesion and material compatibility.

Colors:

Packaging: 600ml x 20 | 10L x 1
195L x 1

B-8103 MS Fixisil

B-8103 MS-WR FIXISIL is a multipurpose Silane Terminated Polymer-based sealant offering primerless adhesion to a wide range of substrates. It cures with atmospheric humidity, provides fast curing, and bonds most surfaces without special treatment. Isocyanate- and solvent-free, it is suitable for interior and exterior industrial sealing applications. It bonds well to metals, ABS, PC, FRP and wood. Testing on actual substrates is recommended to ensure adhesion and material compatibility.

195L x 1

PU & MS

B-8134 MS Fixisil

B-8134 MS FIXISIL Assembly Adhesive is a gun-grade, one component sealant based on Silyl-Terminated Polymer, which cures by reaction with moisture. B-8134 MS FIXISIL Assembly Adhesive Silyl-Terminated Polymer based mixture and is free of solvents, isocyanates, silicones and PVC. It demonstrates good adhesion to most substrates and can be overpainted. It can be used for both interior and exterior applications making it UV resistant.

Colors:

Packaging: 600ml x 20

B-8139 MS Fixisil

B-8139 MS FIXISIL is a gun-grade, one-component Silyl-Terminated Polymer sealant that cures with moisture into a soft elastic product. Free from solvents, isocyanates, silicones and PVC, it offers good adhesion, overpaintability and UV-resistant interior/exterior performance. Designed for bonding and sealing in Bus & Coach, Trucks, Earth Moving Equipment, Tractor, Forklift, O.E.M., Repair Auto After Markets, Containers, Metro Rail, Defence, Aviation, Marine and industrial vehicles, it bonds FRP, GRP, timber, metals, ceramics and plastics.
