ABOUT JUST PVB

High performance polyvinyl butyral (PVB) film for a safer, stronger and more sustainable tomorrow

JUST PVB (Polyvinyl Butyral) film is a high-performance interlayer used in laminated glass. It bonds glass sheets together, enhancing strength, safety, durability and comfort. **JUST PVB** film is trusted by the world's leading glass manufacturers for its exceptional performance, reliability and long life.

Stronger
Increases glass strength and merge

UV Protection
Blocks harmful UV rays and reduces fading

Safer
Holds glass together even when broken

Quieter
Reduces noise and creates a more comfortable space

ABOUT PVB FILM

PVB film is a clear, flexible and highly durable interlayer used in laminated glass. It works as a bonding layer, giving glass strength, safety, UV protection and excellent optical clarity.

OUR VISION

A Safer, Brighter and More Sustainable Future

To be the most trusted PVB film provider, enabling safer buildings, cleaner environments and a more sustainable world.

Quality at the core

Advance PVB film testing facility

Our advanced testing facility enables rigorous evaluation of PVB film quality and performance, ensuring consistent and reliable results.
Our products are also validated through independent third-party inspection for assured quality and compliance.

Quality you can see
Perform you can Trust

PREMIUM PVB FILM SOLUTIONS

PRODUCT SPECIFICATION

Unique JUST PVB features

- Tensile Strength ≥ 20 MPa
- Light Transmittance ≥ 88%
- Lower Roughness, Haze & Moisture
- Elongation ≥ 200%

Key features & Technical Specification

- We manufacture to a thickness from 0.38 - 1.52 mm.
- Clear, Green, Shade band, Tinted Custom Colored PVB film available.

APPLICATIONS

Engineered for a safer, smarter and more beautiful world.

Automotive Glass

Used in windshields, side & rear glass to provide safety, impact resistance and UV protection.

Architectural Glass

Used in facades, curtain walls, skylights and commercial buildings for strength, safety and aesthetics.

Interior Design

Used in partitions, balustrades, shower enclosures and furniture glass for elegance and safety.

Solar Glass

Enhances durability and performance of solar panels with excellent light transmission.

Special Applications

Used in bullet resistant glass, fire resistant glass and high security systems.

Transportation

Used in trains, buses, marine and other mobility solutions for safety and clarity.

STRENGTH & PERFORMANCE

Long Lasting
Durable, reliable and sustainable

Excellent Clarity
High light transmission

Long Life
Durability (20+ years)

Flame Retardant
Self-extinguishing property

Trusted by global leaders
PVB is trusted and world-class

JUST PVB™

OUR GLOBAL PRESENCE

Trusted by customers across the world.

- Global Distribution In 50+ Countries
- Globally Serving 500+ Happy Customers
- Reliable Supply Chain & Strong Partnerships
